Section D — Risks

Element	Disclosure requirement	
---------	------------------------	--

<p>D.2</p>	<p>Key information on the key risks that are specific to the issuer.</p>	<p>An investment in the Securities issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations when they fall due. Deutsche Bank's financial strength also depends, in particular, on its profitability. The following section summarises certain key issues and risks which may adversely affect Deutsche Bank's profitability.</p> <p>Deutsche Bank has been and may continue to be affected by the ongoing global financial crisis and economic downturn. Market declines and volatility can affect the Bank's revenues and profits. Protracted market declines may in the future reduce liquidity in the markets and possibly may lead to material losses. Deutsche Bank may also incur significant losses from its trading and investment activities. Deutsche Bank may incur further losses, as a result of changes in the fair value of its financial instruments. In addition, adverse economic conditions may cause the bank to incur higher credit losses. Deutsche Bank investment banking revenues may decline as a result of adverse market or economic conditions. It may generate lower revenues from brokerage and other commission- and fee-based businesses.</p> <p>In addition, the risk management policies and procedures leave Deutsche Bank exposed to unidentified or unanticipated risks, which could lead to losses. Its non-traditional credit businesses materially add to its traditional banking credit risks. Deutsche Bank has a continuous demand for liquidity to fund its business activities. During periods of liquidity constraints it is exposed to the risk that liquidity is not made available. Deutsche Bank also requires capital to support its business activities and meet regulatory requirements. Losses could diminish the bank's capital, and market conditions may prevent it from raising additional capital or increase its cost of capital.</p> <p>Deutsche Bank operates in an increasingly regulated and litigious environment, potentially exposing it to liability and other costs. Regulatory reforms in response to the financial crisis may significantly affect Deutsche Bank's business model. Deutsche Bank has also been subject to contractual claims and litigation in respect of its U.S. residential mortgage loan business that may affect its results. Operational risks may also disrupt Deutsche Bank's businesses. The size of the bank's clearing operations exposes it to a heightened risk of losses should these operations fail to function properly.</p> <p>If Deutsche Bank is unable to implement its strategic initiatives, it may be unable to achieve its financial objects, or may result in losses. Deutsche Bank may have difficulty in identifying acquisitions, and making both acquisitions and avoiding them could harm its results. The effects of the takeover offer and the subsequent consolidation of the Deutsche Postbank AG may differ materially from Deutsche Bank's expectations (including assumptions regarding regulatory capital and goodwill for example). Postbank reported a loss before tax in each of 2009 and 2008, and although it reported a net profit before tax in 2010, this does not indicate that it will be profitable in any future periods. Deutsche Bank may have difficulties selling noncore assets at favorable prices, or at all. Events at companies in which Deutsche Bank has invested may make it harder to sell its holdings and result in material losses.</p>
<p>D.3</p>	<p>Key information on the</p>	<p>There are also certain factors which are material for the purpose of assessing the risks associated with Securities. These include</p>

	<p>key risks that are specific to the securities and risk warning.</p>	<p>the fact that such Securities may not be a suitable investment for all investors (for example if they do not have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Issuer in context of their financial position or are not capable of bearing the economic risk of an investment in the Issuer for an indefinite period of time), early cancellation of the Securities (including for Issuer event of default) which may lead to a loss of investment and fluctuations and decreases in the market value of the Securities which will also affect the value of the Securities and the amounts paid on any cancellation of the Securities, that payments to Securityholders under the Securities will be made only after payments due to other transaction parties have been met, tax risks (for example that all payments in respect of the Securities will be made subject to any withholding or deduction for taxes and that the Issuer and other non-US financial institutions through which payments on the Securities are made may be required to withhold amounts pursuant to the U.S. Foreign Account Tax Compliance Act), that no secondary market exists for the Securities (meaning that investors may not be able to realise their investment prior to maturity and business relationships between the parties to the Securities and conflicts of interest which may adversely affect the value of the Securities).</p> <p>Investors should consult their own financial, legal, accounting and tax advisers about the risks associated with an investment in these Securities. No investor should purchase the Securities unless that investor understands and has sufficient financial resources to bear the risks associated with an investment in these Securities and, in particular, the potential risk that investors may lose the value of their entire investment or part of it.</p> <p>Currency Markets</p> <p>The Notes are denominated and payments are made in Australian Dollars. Currency markets may be highly volatile and significant changes in prices can occur in such markets in very short periods of time.</p> <p>Fixed Rate Interest</p> <p>The Securities bear a fixed rate of interest and will pay on the Interest Payment Date. Investors who purchase Securities with a fixed rate of interest are exposed to the risk that market interest rates rise and the fixed amount of interest they receive is less than the amount they would have received had they invested in a Security with a floating rate of interest. The market value of Securities with a fixed rate of interest will decrease if potential investors perceive that they can achieve a greater return on an investment by investing in alternative products.</p> <p>Early Redemption</p> <p>If the Securities are redeemed early, investors should be aware that early redemption unwind costs shall be deducted from the redemption amount.</p>

The Issuer shall have the right upon giving notice to the Securityholders in accordance with § 13 to change the branch through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

- (2) *Notice.* Notice of any such substitution shall be published in accordance with § 13.
- (3) *Change of References.* In the event of any such substitution, any reference in these Conditions to the Issuer shall from then on be deemed to refer to the Substitute Debtor and any reference to the country in which the Issuer is domiciled or resident for taxation purposes shall from then on be deemed to refer to the country of domicile or residence for taxation purposes of the Substitute Debtor.

Furthermore, in the event of such substitution, in § 10(1)(c) and (d) an alternative reference to the Issuer in respect of its obligations as guarantor under the guarantee pursuant to paragraph (1) of this § 11 shall be deemed to have been included in addition to the reference to the Substitute Debtor.

§ 12 FURTHER ISSUES AND PURCHASES

- (1) *Further Issues.* The Issuer may from time to time, without the consent of the Securityholders or the Couponholders, issue further securities having the same terms as the Securities in all respects (or in all respects except for the issue date, the amount and the date of the first payment of interest thereon and/or issue price) so as to form a single Series with the outstanding Securities.
- (2) *Purchases and Cancellation.* The Issuer may at any time purchase Securities in the open market or otherwise and at any price. Securities purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Fiscal Agent for cancellation.

§ 13 NOTICES

- (1) *Publication.* Subject as provided in § 10(3), all notices concerning the Securities shall, subject to paragraph(2) below, be published (a) in the electronic Federal Gazette (*elektronischer Bundesanzeiger*), (b) in a leading English language daily newspaper of general circulation in London expected to be the Financial Times in London and (c) if and for so long as the Securities are admitted to trading on the regulated market, or listed on the official list of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, on the website of the Luxembourg Stock Exchange (<http://www.bourse.lu>). Any notice so given will be deemed to have been validly given on the date of such publication (or, if published more than once, on the date of such first publication).
- (2) *Notification to Clearing System.* Until such time as Definitive Securities are issued and so long as the Global Security representing the Securities is held in its entirety on behalf of the relevant Clearing System, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Securityholders. Such notification to the Clearing System will substitute the publication pursuant to paragraph (1) above provided that so long as any Security is admitted to trading on the regulated market, or listed on the official list of the Luxembourg Stock Exchange paragraph 1(c) shall apply. However, if the rules of the Luxembourg Stock Exchange so permit, the Issuer may deliver the relevant notice to the Clearing System for communication by the Clearing System to the Securityholder in lieu of a publication in accordance with paragraph 1(c) above. Any such notice shall be deemed to have been given to the holders of the Securities on the day on which the said notice was given to the relevant Clearing System.

- (3) *Notification by Securityholders.* Notice to be given by any Securityholders shall be given to the Fiscal Agent through the Clearing System in such manner as the Fiscal Agent and/or the Clearing System, as the case may be, may approve for this purpose. In the case of any Security in definitive form, notices to be given by any Securityholder shall be in writing and given by lodging the same, together with the relative Security or Securities, with the Fiscal Agent or the Paying Agent in Luxembourg.

§ 14

CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Security, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

§ 15

MEETINGS OF SECURITYHOLDERS, MODIFICATION AND WAIVER

The Agency Agreement contains provisions for convening meetings of the Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Securities, the Coupons or any of the provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or upon the request in writing of Securityholders holding not less than ten per cent. in principal amount of the Securities for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is two or more persons holding or representing not less than 50 per cent. in principal amount of the Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the principal amount of the Securities so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Securities or the Coupons (including modifying the date of maturity of the Securities or any date for payment of interest thereon, reducing or cancelling the amount of principal or interest payable in respect of the Securities or altering the currency of payment of the Securities or the Coupons), the quorum shall be two or more persons holding or representing not less than three-quarters in principal amount of the Securities for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one quarter in principal amount of the Securities for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Securityholders shall be binding on all the Securityholders, whether or not they are present at the meeting, and on all Couponholders.

The Fiscal Agent and the Issuer may agree, without the consent of the Securityholders or Couponholders, to:

- (a) any modification (except as mentioned above) of the Securities or the Coupons or the Agency Agreement which is not prejudicial to the interests of the Securityholders; or
- (b) any modification of the Securities, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of the law.

Any such modification shall be binding on the Securityholders and the Couponholders and any such modification shall be notified to the Securityholders in accordance with § 13 as soon as practicable thereafter.

§ 16

GOVERNING LAW AND SUBMISSION TO JURISDICTION

- (1) *Governing law.* The Deed of Covenant, the Securities and the Coupons and any non-contractual obligations arising out of or in connection therewith are governed by, and shall be construed in accordance with, English law.
- (2) *Submission to jurisdiction.* The Issuer agrees, for the exclusive benefit of the Securityholders and the Couponholders, that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Securities and the Coupons (including a dispute relating to any non-contractual obligations arising out of or in connection therewith) and that accordingly any suit, action or proceedings (together referred to as "**Proceedings**") arising out of or in connection with the Securities

and the Coupons (including a dispute relating to any non-contractual obligations arising out of or in connection therewith) may be brought in such courts.

The Issuer hereby irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any such Proceedings in any such court and any claim that any such Proceedings have been brought in an inconvenient forum and hereby further irrevocably agrees that a judgment in any such Proceedings brought in the English courts shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

Nothing contained in this §16 shall limit any right to take Proceedings (including any Proceedings relating to any non-contractual obligations arising out of or in connection with the Securities and the Coupons) against the Issuer in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.

- (3) *Other documents.* The Issuer has in the Deed of Covenant submitted to the jurisdiction of the English courts in terms substantially similar to those set out above.

§ 17 LANGUAGE

These Conditions of the Securities are written in the English language only.

SCHEDULE

ITALIAN TAXATION

The following is a general summary of certain Italian tax consequences of the purchase, ownership and disposal of the Securities by Italian resident Securityholders. It does not purport to be a comprehensive description of all the tax aspects which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

Prospective purchasers of the Securities are advised to consult in any case their own tax advisers concerning the overall tax consequences of their purchase, ownership and disposal of the Securities.

This summary assumes that the Securities are issued by Deutsche Bank AG, acting through its London branch and that the Issuer is resident for tax purposes in the United Kingdom. Changes in Deutsche Bank AG's organisational structure, tax residence or the manner in which it conducts its business, as well as in case of Substitution of the Issuer as more fully set out in Condition 11 of the Terms and Conditions of the Securities, may invalidate this summary. This summary also assumes that each transaction with respect to the Securities is at arm's length.

This summary is based upon the laws and/or practice in force as at the date of this Final Terms, which are subject to any changes in law and/or practice occurring after such date, which could be made on a retroactive basis.

Deutsche Bank AG will not update this summary to reflect changes in law and/or practice. If any such change should occur, the information in this summary could become obsolete.

1. Tax on interest, premium and other proceeds

1.1 Securities qualifying as bonds or similar securities

Pursuant to Legislative Decree No. 239 of 1 April 1996 ("**Decree No. 239**"), a substitute tax (*imposta sostitutiva*) at a rate of 20 per cent. applies on interest, premiums and other income including the difference between the redemption amount and the issue price (hereinafter collectively referred to as "**Interest**") on securities qualifying as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) within the meaning of Article 44 of Presidential Decree No. 917 of 22 December 1986 ("**Decree No. 917**").

Pursuant to Decree No. 239, payments of Interest accrued on Securities issued by Deutsche Bank AG, acting through its London branch will be subject to *imposta sostitutiva* at the rate of 20 per cent. in the Republic of Italy if made to beneficial owners who are:

- (1) Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected;
- (2) Italian resident non commercial partnerships;
- (3) Italian resident non-commercial private or public institutions; or
- (4) Italian resident investors exempt from Italian corporate income taxation;

(unless the relevant Securityholder has entrusted the management of its financial assets, including the Securities, to an authorised intermediary and has opted for the so-called *risparmio gestito* regime (the "**Asset Management Option**"), according to Article 7 of Legislative Decree No. 461 of 21 November 1997 ("**Decree No. 461**").

If the Securityholders described under (1) and (3) above are engaged in an entrepreneurial activity to which the Securities are connected, the substitute tax applies as a provisional tax. As a consequence, the Interest is subject to the ordinary income tax and the substitute tax may be recovered as a deduction from the income tax due.

Pursuant to Decree No. 239, the 20 per cent. *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* (so-called "SIMs"), fiduciary companies, *società di gestione del risparmio*, stockbrokers and other

qualified entities resident in Italy ("**Intermediaries**" and each an "**Intermediary**") or by permanent establishments in Italy of banks or intermediaries resident outside Italy that intervene in any way in the collection of Interest or, also as transferees, in the transfers or, disposals of the Securities. Where the Securities and the relevant coupons are not deposited with an Intermediary, the substitute tax is applied and withheld by any Italian intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Securityholder. Where Interest on Securities beneficially owned by the subjects persons or entities described in (1) to (4) above is not collected through the intervention of an Italian resident intermediary and as such no substitute tax is applied, the above Italian resident beneficial owners will be required to declare Interest in their yearly income tax return and subject them to final substitute tax at a rate of 20 per cent. (only limited to those Securityholders not engaged in a business activity to which the Securities are effectively connected), unless an option for a different regime is allowed and made. Italian resident Securityholders that are individuals not engaged in entrepreneurial activity may elect instead to pay ordinary personal income taxes at the progressive rates applicable to them in respect of Interest on such Securities: if so, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

Where an Italian resident Securityholder who is beneficial owner of the Securities is a company or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and the Securities and relevant coupons are timely deposited with an Intermediary, Interest from the Securities will not be subject to the substitute tax, but must be included in the relevant Securityholder's annual income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Securityholder, also to regional income tax on productive activities - IRAP). In such cases, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

Payments of Interest in respect of the Securities made to Italian resident collective investment funds and SICAVs are subject neither to substitute tax nor to any other income tax in the hands of the investment fund or SICAV. A substitute tax of 20 per cent. applies on proceeds distributed by the fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Italian resident pension funds subject to the regime provided by Article 17 of Decree 252/2005 are subject to a 11 per cent. tax (the "**Pension Fund Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Securities during the holding period).

Payments of Interest in respect of the Securities made to Italian resident real estate investment funds established pursuant to Article 37 of Italian Legislative Decree No. 58 of 24th February, 1998, as amended and supplemented, and Article 14-bis of Italian Law No. 86 of 25th January, 1994, are subject neither to substitute tax nor to any other income tax in the hands of the real estate investment fund.

1.2 Securities qualifying as atypical securities

Interest payments relating to Securities that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*), but qualify as atypical securities (*titoli atipici*) for Italian tax purposes, may be subject to a withholding tax, levied at the rate of 20 per cent. For this purpose, as indicated above, pursuant to Article 44 of Decree No. 917, securities similar to bonds are securities that (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management.

Where the Securityholder is (i) an Italian resident individual engaged in an entrepreneurial activity to which the Securities are connected, (ii) an Italian resident company or a similar Italian resident commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Securities are effectively connected, (iv) an Italian resident commercial partnership or (v) an Italian resident commercial private or public institution, the above-mentioned 20 per cent. withholding tax is a provisional withholding tax. In all other cases, the withholding tax is a final withholding tax.

2. Capital gains tax

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable business income (and, in certain circumstances, depending on the "status" of the Securityholder, also as part of the net

value of the production for IRAP purposes) if realised by an Italian resident company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

Where an Italian resident Securityholder is an individual not engaged in an entrepreneurial activity to which the Securities are connected and certain other persons, any capital gain realised by such Securityholder from the sale or redemption of the Securities would be subject to a substitute tax (*imposta sostitutiva*), levied at the current rate of 20 per cent. Securityholders may generally set-off capital losses with gains of the same nature.

For the purposes of determining the taxable capital gain, any Interest on the Securities accrued and unpaid up to the time of the purchase and the sale of the Securities must be deducted from the purchase price and the sale price, respectively.

In respect of the application of such substitute tax, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss of the same nature, realised by the Italian resident individual Securityholder holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Securityholders holding the Securities not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Securities under the *Risparmio Amministrato* regime. Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities, net of any incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the *Risparmio Amministrato* regime, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains of the same nature subsequently realised, within the same securities management relationship, in the same tax year or in the following tax years up to the fourth. Under the *Risparmio Amministrato* regime, the Securityholder is not required to declare the capital gains in the annual tax return.

Any capital gains on Securities held by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the Asset Management Option will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 20 per cent. Asset Management Tax to be paid by the managing authorised intermediary. Under the Asset Management Option, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Option, the Securityholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains on Securities held by a Securityholder who is an Italian collective investment fund or a SICAV will not be subject to taxation in the hands of the investment fund or SICAV. A substitute tax of 20 per cent. will apply on proceeds distributed by the fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Any capital gains on Securities held by a Securityholder who is an Italian pension fund (subject to the regime provided for by Article 17 of Decree 252/2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. Pension Fund Tax.

Any capital gains realised by Italian resident real estate funds established pursuant to Article 37 of Italian Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Italian Law No. 86 of 25 January 1994, on the Securities are not taxable at the level of the same real estate funds.

3. Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, as converted in law, with amendments, pursuant to Law No. 286 of 24 November 2006, transfers of Securities as a result of death or donation of Italian residents and of non-Italian residents, but in such latter case limited to Securities held within the Italian territory, are generally taxed in Italy as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding €1,000,000.00 for each beneficiary;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift;
- (iii) transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding €100,000.00 for each beneficiary; and
- (iv) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the beneficiary has a serious disability recognised by law, inheritance and gift taxes apply on its portion of the net asset value exceeding € 1,500,000.00.

4. Transfer tax

Following the repeal of the Italian transfer tax, as from 31 December 2007, contracts relating to the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to a fixed registration tax at a rate of € 168.00; (ii) private deeds are subject to registration tax only if they are voluntary registered.

5. Stamp Duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the Securities deposited therewith. The stamp duty applies at the current rate of 0.15 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Securities held. The stamp duty can be no lower than € 34.20.

6. Wealth tax on Securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Securities outside the Italian territory are required to pay an additional tax at the current rate of 0.15 per cent.

This tax is calculated on the market value of the Securities at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

7. EU Savings Directive

7.1 General

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person in favour of, a beneficial owner that is, an individual resident in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries including Switzerland, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

On 15 September 2008 the European Commission issued a report to the Council of the European Union on the operation of the Directive, which included the Commission's advice on the need for changes to the Directive. On 13 November 2008 the European Commission published a more detailed proposal for amendments to the Directive, which included a number of suggested changes. The European Parliament approved an amended version of this proposal on 24 April 2009. If any of those proposed changes are made in relation to the Directive, they may amend or broaden the scope of the requirements described above.

7.2 Implementation in Italy

Italy has implemented the Directive through Legislative Decree No. 84 of 18 April 2005 (“Decree 84”). Under Decree 84, subject to a number of important conditions being met, where interest is paid (including interest accrued on the Securities at the time of their disposal) to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State or in a dependent or associated territory under the relevant International agreement (currently Jersey, Guernsey, the Isle of Man, the Netherlands Antilles, the British Virgin Islands, Turks and Caicos Islands, the Cayman Islands, Montserrat, Anguilla and Aruba), Italian paying agents (including any banks, SIMs, fiduciary companies and SGRs resident for tax purposes in Italy) are required to report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the state of residence of the beneficial owner.
