ABOUT THIS PROSPECTUS SUPPLEMENT

As used in this prospectus supplement, unless otherwise specified or where it is clear from the context that the term only means issuer, the terms “Celgene,” “we,” “us” and “our” refer to Celgene Corporation and its consolidated subsidiaries.

This document is in two parts. The first part is this prospectus supplement, which adds to and updates information contained in the accompanying prospectus, and describes our senior debt securities offering. The second part is the accompanying prospectus, dated October 27, 2016, which provides more general information, some of which may not apply to this offering. Generally, when we refer to this prospectus, we are referring to both parts of this document combined. To the extent there is a conflict between the information contained in this prospectus supplement and the information contained in the accompanying prospectus, you should rely on the information in this prospectus supplement.

Before purchasing any securities, you should carefully read both this prospectus supplement and the accompanying prospectus, together with the additional information described under the headings “How to Obtain More Information” and “Incorporation by Reference” in this prospectus supplement.

HOW TO OBTAIN MORE INFORMATION

The SEC maintains an Internet website (<http://www.sec.gov>) that contains reports, proxy and information statements and other materials that are filed through the SEC’s Electronic Data Gathering, Analysis and Retrieval (EDGAR) system.

We have filed with the SEC a registration statement on Form S-3 under the Securities Act of 1933, as amended, or the Securities Act, with respect to the securities offered by this prospectus supplement, which has become effective. This prospectus supplement does not contain all of the information in the registration statement. We have omitted certain parts of the registration statement, as permitted by the rules and regulations of the SEC. You may inspect and copy the registration statement, including exhibits, at the SEC’s public reference facilities or website. Statements contained in this prospectus supplement concerning the contents of any document we refer you to are not necessarily complete and in each instance we refer you to the applicable document filed with the SEC for more complete information.

INCORPORATION BY REFERENCE

The SEC allows us to “incorporate by reference” the information we file with them, which means that we may disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus supplement, and information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and all documents subsequently filed with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, prior to the termination of the offering under this prospectus supplement. PROSPECTUS SUPPLEMENT SUMMARY

The following is a summary of some of the information contained, or incorporated by reference, in this prospectus supplement. It is not complete and may not contain all the information that is important to you. To understand this offering fully, you should read carefully this entire prospectus supplement, including the risk factors beginning on page S-10 and the financial statements incorporated by reference in this prospectus supplement, the accompanying prospectus and the other documents incorporated by reference herein and therein. Unless the context requires otherwise, references to “we,” “us,” “our” and “Celgene” shall mean Celgene Corporation and its consolidated subsidiaries. Celgene Corporation

We are an integrated global biopharmaceutical company engaged primarily in the discovery, development and commercialization of innovative therapies for the treatment of cancer and inflammatory diseases through next-generation solutions in protein homeostasis, immuno-oncology, epigenetics, immunology and neuro-inflammation.

Our primary commercial stage products include REVLIMID[®], POMALYST[®]/IMNOVID[®], OTEZLA[®], ABRAXANE[®], VIDAZA[®], azacitidine for injection (generic version of VIDAZA[®]), THALOMID[®] (sold as THALOMID[®] or Thalidomide Celgene[®] outside of the U.S.) and IDHIFA[®]. IDHIFA[®] was approved by the U.S. Food and Drug Administration (FDA) in August 2017 for the treatment of adult patients with relapse or refractory acute myeloid leukemia (AML) or (R/R AML) with an isocitrate dehydrogenase-2 (IDH2) mutation as detected by an FDA approved diagnostic test. We began recognizing revenue related to IDHIFA[®] during the third quarter of 2017. In addition, we earn revenue from other product sales and licensing arrangements.

We continue to invest substantially in research and development in support of multiple ongoing proprietary clinical development programs which support our existing products and pipeline of new drug candidates. Our clinical trial activity includes trials across the disease areas of hematology, solid tumors, and inflammation and immunology. REVLIMID[®] is in several phase III trials covering a range of hematological malignancies that include multiple myeloma and lymphomas. Also, within hematological malignancies, POMALYST[®] is in several phase III and post-approval trials for relapsed/refractory multiple myeloma (RRMM). In solid tumors, ABRAXANE[®] is currently in various stages of investigation for pancreatic and non-small cell lung cancers. In inflammation and immunology, OTEZLA[®] is being evaluated in phase III trials for Behçet’s disease and scalp psoriasis, and is continuing to be studied in ulcerative colitis (UC), psoriatic arthritis and plaque psoriasis. We also have a growing number of potential products in phase III trials across multiple diseases. In the inflammation and immunology therapeutic area, we have phase III trials underway for ozanimod in relapsing multiple sclerosis (RMS), UC and a phase III trial in Crohn’s Disease (CD) that is initiating. In hematology, phase III trials are underway for CC-486 and luspatercept in myelodysplastic syndromes (MDS), for CC-486 in AML and for luspatercept in beta-thalassemia. In July 2017, Celgene Corporation entered into global strategic immuno-oncology collaboration with BeiGene, Ltd. (BeiGene) to advance a PD-1 Inhibitor (BGB-A317) program for solid tumor cancers. In collaboration with bluebird bio, bb2121, a BCMA CAR T cell therapy, has shown impressive efficacy in RRMM with a good safety profile. Breakthrough Therapy designation has been granted by the FDA and bb2121 has been given access to the Priority Medicines scheme by the European Medicines Agency (EMA) Committee for Medicinal Products for Human Use (CHMP). A pivotal study in RRMM was initiated in December 2017.

Beyond our phase III programs, we have access to a growing early-to-mid-stage pipeline of novel potential therapies to address significant unmet medical needs that consists of new drug candidates and cell therapies developed in-house, licensed from other companies or able to be optioned from collaboration partners. We believe that continued use of our primary commercial stage products, participation in research and development collaboration arrangements, depth of our product pipeline, potential regulatory approvals of new products and new indications for existing products will provide the catalysts for future growth.

Recent Developments

Proposed Acquisition of Juno

As previously disclosed in our Current Report on Form 8-K filed with the SEC, on January 22, 2018, we entered into an agreement and plan of merger with Juno (the “Juno Merger Agreement”), pursuant to which we commenced a tender offer on February 2, 2018 to purchase all of the outstanding shares of common stock of Juno at a purchase price of \$87.00 per share, net to the seller in cash, subject to reduction for any applicable withholding taxes, or a total of approximately \$9 billion, net of cash and marketable securities acquired and Juno shares already owned by Celgene (approximately 9.7% of outstanding shares). The offer will initially expire at 12:00 midnight, New York City time, at end of the day on March 2, 2018.

The closing of the transaction is subject to customary closing conditions, including, among others, that the number of Juno shares validly tendered and not withdrawn in accordance with the terms of the offer, together with Juno shares then owned by us and our direct and indirect wholly-owned subsidiaries, represents at least a majority of all then outstanding Juno shares and expiration or termination of the applicable waiting period (and any extensions thereof) under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended. We expect that the acquisition will close in the first quarter of 2018, although there can be no assurance that the transaction will occur within the expected time period or at all.

About Juno

Juno is building a fully-integrated biopharmaceutical company focused on developing innovative cellular immunotherapies for the treatment of cancer. Founded on the vision that the use of human cells as therapeutic entities will drive one of the next important phases in medicine, Juno is developing cell-based cancer immunotherapies based on its CAR and high-affinity TCR technologies to genetically engineer T cells to recognize and kill cancer cells. Juno has shown compelling clinical responses in clinical trials using multiple cell-based product candidates to address refractory B cell lymphomas and leukemias, and Juno also has a number of ongoing trials exploring its platform in solid-organ cancers and multiple myeloma, and in combination with various strategies to overcome the immune-suppressive effects of cancer. Over time, Juno aims to improve and leverage its cell based platform to develop additional product candidates to address a broad range of cancers and human diseases, including moving forward its preclinical product candidates that target additional hematologic and solid organ cancers.

Juno is conducting a trial with JCAR017 in adult r/r aggressive non-Hodgkin lymphoma (“NHL”), including relapsed or refractory (“r/r”) diffuse large B cell lymphoma (“DLBCL”), which commenced as a Phase I trial in 2015 and is currently enrolling the cohort Juno believes may support registration. Juno began a Phase I/II trial with JCAR017 in r/r chronic lymphocytic leukemia (“CLL”) in the fourth quarter of 2017. If the results of these trials are favorable, Juno believes that it may obtain U.S. regulatory approval in r/r DLBCL to support a commercial launch in early 2019 and obtain U.S. regulatory approval in r/r CLL as early as 2019 or 2020. Key variables impacting the timing of approval will be the time it takes to complete enrollment of its pivotal cohort, the timing of its FDA submission, which Juno expects to be completed for JCAR017 in r/r DLBCL in the second half of 2018, and the duration of FDA review. Additionally, Juno has begun a Phase Ib clinical trial of JCAR017 in combination with durvalumab in adult r/r aggressive NHL and intends to broaden the study to include JCAR017 in combination with other immunomodulatory agents in 2019. Juno also intends to develop JCAR017 or a next generation product candidate in both pediatric r/r acute lymphoblastic leukemia (“ALL”) and adult r/r ALL. Juno has a number of other trials ongoing with its academic collaborators using product candidates directed at CD19.

Beyond CD19, Juno is conducting Phase I trials for additional product candidates that target seven different cancer associated proteins in hematological and solid organ cancers. In particular, Juno has begun a Phase I trial in patients with multiple myeloma using JCARH125, a CART cell product candidate targeting B-cell maturation antigen (“BCMA”) that Juno may advance to registration study if clinical results are compelling. Juno has a number of other preclinical programs against other targets that it expects to move into human testing over the next several years.

Juno has assembled a talented group of scientists, engineers, clinicians, directors, and other advisors who develop and consolidate technologies and intellectual property from some of the world's leading research institutions, including Fred Hutchinson Cancer Research Center, Memorial Sloan Kettering Cancer Center, Seattle Children's Research Institute ("SCRI"), the University of California, San Francisco, and the National Cancer Institute ("NCI"). It has also entered into a number of strategic collaborations with commercial companies that Juno believes will help it manufacture and commercialize its product candidates around the world or develop additional or improved product candidates, including Celgene, Editas Medicine, Inc., Fate Therapeutics, Inc., and MedImmune Limited.

Juno has established a Juno-owned and -operated manufacturing facility in Bothell, Washington. Juno began manufacturing clinical trial material from this facility beginning in the first quarter of 2016, and plans to manufacture commercial products, subject to the required regulatory approvals, with the commercial launch of JCAR017.

Annual Report on Form 10-K for the year ended December 31, 2017, which has been filed with the SEC and is incorporated herein by reference, before deciding to invest in the notes.

We may, without notice to or the consent of the holders or beneficial owners of the notes, create and issue additional notes and/or notes having the same ranking, interest rate, maturity and other terms as the notes of a particular series. Any additional debt securities having such similar terms, together with that series of notes, could be considered part of the same series of notes under the indenture, provided that if the additional notes are not fungible with the notes of a particular series offered hereby for U.S. federal income tax purposes, the additional notes will have a separate CUSIP number.

Trustee

The Bank of New York Mellon Trust Company, N.A.

Governing Law

The notes will be governed by the laws of the State of New York.

RISK FACTORS

Before investing in our securities, you should carefully consider the following risks and the risk factors described in “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, which has been filed with the SEC and is incorporated by reference herein, and subsequent filings containing updated disclosures of such factors, together with other information contained in this prospectus supplement and any related free writing prospectus and the other information that we have incorporated by reference herein. Whether or not any of these risk factors were actually to occur, our business, financial condition or results of operations could be materially adversely affected.

Risks Related to this Offering

We may not be Able to Generate Sufficient Cash to Service our Obligations Under the Notes

Our ability to service the notes will depend upon, among other things, continued commercial success of our primary products REVLIMID[®], POMALYST[®]/IMNOVID[®], OTEZLA[®], ABRAXANE[®] and VIDAZA[®], and other factors that affect our future financial and operating performance, including, without limitation, prevailing economic conditions and financial, business and regulatory factors, many of which are beyond our control.

If we are unable to generate sufficient cash flow to service the debt service requirements under the notes, we may be forced to take actions such as:

- restructuring or refinancing our debt, including the notes;
- seeking additional debt or equity capital;
- seeking bankruptcy protection;
- reducing distributions if we make any in the future;
- reducing or delaying our business activities, acquisitions, investments or capital expenditures; or
- selling assets.

Such measures might not be successful and might not enable us to service our obligations under the notes. In addition, any such financing, refinancing or sale of assets might not be available on economically favorable terms or at all.

We may still be Able to Incur Substantially More Indebtedness. This Could Exacerbate the Risks Associated with Our Indebtedness Under the Notes

We may be able to incur substantial additional indebtedness in the future. The terms of the indenture governing our existing notes (as described in our Annual Report on Form 10-K for the year ended December 31, 2017) and the terms of the indenture governing the notes offered hereby, as well as the agreement governing our revolving credit facility, do not prevent us or our subsidiaries from incurring indebtedness, subject to the financial maintenance covenants under our revolving credit facility. If we incur any additional indebtedness that ranks equally with our existing notes, the notes offered hereby and the obligations under our revolving credit facility, the holders of that indebtedness will be entitled to share ratably with the holders of the notes offered hereby in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding-up of us. This may have the effect of reducing the amount of proceeds paid to you. If new indebtedness is added to our current debt levels, the related risks that we and our subsidiaries now face could intensify.

The Notes Offered Hereby will be Unsecured and Effectively Subordinated to any Future Secured Indebtedness

The notes offered hereby will be general unsecured obligations ranking effectively junior in right of payment to any future secured indebtedness. The notes are not secured by any of our assets. Any claims of future secured lenders with respect to assets securing their loans will be prior to any claim of the holders of the notes with respect to those assets. Additionally, the indenture governing the existing notes and the indenture governing the notes offered hereby, as well as the agreement governing our revolving credit

facility, will permit us to incur additional secured indebtedness in the future. In the event that we are declared bankrupt, become insolvent or are liquidated or reorganized, any indebtedness that is effectively senior to the notes will be entitled to be paid in full from our assets securing such indebtedness before any payment may be made with respect to the notes offered hereby. Holders of the notes offered hereby will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes (including the existing notes and the obligations under our revolving credit facility), and potentially with all of Celgene Corporation's other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets.

The Terms of the Indenture and the Notes Provide Only Limited Protection Against Significant Corporate Events that could Adversely Impact Your Investment in the Notes

While the indenture and the notes contain terms intended to provide protection to the holders of the notes upon the occurrence of certain events involving significant corporate transactions, such terms are limited and may not be sufficient to protect your investment in the notes.

The definition of the term "Change of Control Triggering Event" (as defined in "Description of Notes — Offer to Purchase upon Change of Control Triggering Event") does not cover a variety of transactions (such as acquisitions by us or recapitalizations) that could negatively affect the value of your notes. If we were to enter into a significant corporate transaction that would negatively affect the value of the notes but would not constitute a Change of Control Triggering Event, we would not be required to offer to repurchase your notes prior to their maturity.

Furthermore, the indenture for the notes does not:

- require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity;
- limit our ability to incur indebtedness that is equal in right of payment to the notes;
- restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness that would be senior to our equity interests in our subsidiaries and therefore rank effectively senior to the notes;
- limit the ability of our subsidiaries to service indebtedness;
- restrict our ability to repurchase or prepay any other of our securities or other indebtedness; or
- restrict our ability to make investments or to repurchase or pay dividends or make other payments in respect of our common stock or other securities ranking junior to the notes.

As a result of the foregoing, when evaluating the terms of the notes, you should be aware that the terms of the indenture and the notes do not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events that could have an adverse impact on your investment in the notes.

Our Credit Ratings are Subject to Change

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

Your Ability to Transfer the Notes Offered Hereby will be Limited by the Absence of an Active Trading Market

The notes are series of securities for which there are currently no established trading markets. The underwriters have advised us that they intend to make markets in the notes as permitted by applicable laws and regulations; however, the underwriters are not obligated to make markets in the notes, and they may discontinue their market-making activities at any time without notice. Therefore, active markets for the notes may not develop or, if developed, such markets may not continue. In addition, subsequent to their

initial issuance, the notes may trade at a discount from their initial offering prices, depending upon prevailing interest rates, the market for similar notes, our performance, general economic conditions and other factors. The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market prices of the notes.

We do not intend to apply for listing or quotation of the notes on any securities exchange or stock market. The liquidity of any market for the notes will depend on a number of factors, including:

- the number of holders of notes;
- our operating performance and financial condition;
- the market for similar securities;
- the interest of securities dealers in making markets in the notes; and
- prevailing interest rates.

Upon Certain Change of Control Triggering Events, We may not have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer Required by the Indenture Governing the Notes, which would Violate the Terms of the Notes.

Upon the occurrence of specific kinds of change of control triggering events, holders of the notes will have the right to require us to purchase all or any part of the notes at a price equal to 101% of the principal amount, plus accrued and unpaid interest, if any, to the date of purchase. We may not have sufficient financial resources available to satisfy all of our obligations under the notes in the event of a change in control. Our failure to purchase the notes as required under the indenture would result in a default under the indenture, which could have material adverse consequences for us and the holders of the notes. See “Description of Notes — Offer to Purchase upon Change of Control Triggering Event.”

In the Event that the Juno Acquisition has not closed by November 20, 2018 or if an Acquisition Termination Event occurs, we will be Required to Redeem the Notes, in Whole but not in Part, at a Redemption Price Equal to 101% of the Aggregate Principal Amount of such Notes, plus Accrued and Unpaid Interest on such Notes on the Date of Redemption, and, as a Result, Holders of such Notes may not Obtain their Expected Return on such Notes.

We may not consummate the Juno acquisition by November 20, 2018, or an Acquisition Termination Event may occur. Our ability to consummate the Juno acquisition is subject to customary closing conditions, including regulatory approvals and other matters over which we have limited or no control. In the event that the Juno acquisition has not closed on or prior to November 20, 2018, or an Acquisition Termination Event occurs, we will be required to redeem the notes, in whole but not in part, at a redemption price equal to 101% of the aggregate principal amount of such notes, plus accrued and unpaid interest on such notes on the date of redemption. See “Description of Notes — Special Mandatory Redemption.” If we redeem the notes pursuant to the special mandatory redemption, you may not obtain your expected return on the notes. Your decision to invest in the notes is made at the time of the offering of the notes. You will have no rights under the special mandatory redemption provision if the closing of the Juno acquisition occurs before November 20, 2018, nor will you have any right to require us to redeem your notes if, between the closing of the notes offering and the closing of the Juno acquisition, we experience any changes in our business or financial condition or if the terms of the Juno acquisition change.

We are not Obligated to Place the Proceeds from the Sale of the Notes in Escrow Prior to the Closing of the Juno Acquisition.

In the event that the Juno acquisition has not closed on or prior to November 20, 2018, or an Acquisition Termination Event occurs, we will be required to redeem the notes, in whole but not in part, at a redemption price equal to 101% of the aggregate principal amount of such notes, plus accrued and unpaid interest on such notes on the date of redemption. See “Description of Notes — Special Mandatory Redemption.” We are not obligated to place the proceeds from the sale of the notes in escrow prior to the closing of the Juno acquisition or to provide a security interest in those proceeds, and there are no

restrictions on our use of those proceeds during such time. Accordingly, we will need to fund any special mandatory redemption using cash on hand, proceeds of this offering that we have voluntarily retained or from other sources of liquidity. We cannot assure you that we will have sufficient funds available when needed to make any required redemption of the notes offered hereby. Any failure to redeem any of these notes would constitute a default under the indenture governing the notes offered hereby.

We may Amend the Juno Merger Agreement in a Manner that may be Adverse to Noteholders.

The indenture governing the notes does not restrict Juno and us from amending the Juno Merger Agreement, and any such amendment could be materially adverse to the interests of noteholders. Amendments will not be subject to approval of the noteholders and will not require us to redeem your notes.

USE OF PROCEEDS

The net proceeds to us from this offering are estimated to be approximately \$4,452 million, after deducting underwriting discounts and estimated offering expenses payable by us. We intend to use the net proceeds from this offering to finance a portion of the Juno acquisition and to pay fees and expenses associated therewith and with this offering.

DESCRIPTION OF NOTES

We will issue the 2.875% Senior Notes due 2021 (the “2021 notes”), the 3.250% Senior Notes due 2023 (the “2023 notes”), the 3.900% Senior Notes due 2028 (the “2028 notes”) and the 4.550% Senior Notes due 2048 (the “2048 notes”) and, together with the 2021 notes, the 2023 notes and the 2028 notes, the “notes”) under an indenture, to be dated as of February 20, 2018 (the “indenture”), between us and The Bank of New York Mellon Trust Company, N.A. as trustee (the “trustee”). The notes will each be a separate series of notes under the indenture. We may issue additional notes under the indenture.

The following summary of certain provisions of the indenture and the notes does not purport to be complete and is subject to, and qualified in its entirety by reference to, all the provisions of the indenture and the notes, including the definitions therein of certain terms. Because the following is only a summary, it does not contain all of the information that you may find useful in evaluating an investment in the notes.

We urge you to read the indenture and the notes because they, and not this description, define your rights as holders of the notes.

As used in this discussion under the heading “Description of Notes,” unless otherwise specified, the terms “Celgene,” “we,” “our,” and “us” refer solely to Celgene Corporation and not its subsidiaries.

General

- The notes will be our senior unsecured obligations and will rank equal in right of payment to any of our existing unsecured senior indebtedness and any other unsecured senior indebtedness hereafter created;
- The 2021 notes, the 2023 notes, the 2028 notes and the 2048 notes will initially be issued in aggregate principal amounts of \$500,000,000, \$1,000,000,000, \$1,500,000,000 and \$1,500,000,000, respectively;
- The 2021 notes will mature on February 19, 2021, the 2023 notes will mature on February 20, 2023, the 2028 notes will mature on February 20, 2028 and the 2048 notes will mature on February 20, 2048; and
- The 2021 notes will pay interest at the rate of 2.875% per annum, which, shall be payable semi-annually in arrears on each February 19 and August 19, beginning August 19, 2018 and, will initially accrue from the date of issuance and thereafter from the last date to which interest has been paid. The 2023 notes will pay interest at the rate of 3.250% per annum, the 2028 notes will pay interest at the rate of 3.900% per annum and the 2048 notes will pay interest at the rate of 4.550% per annum, which, in each case, shall be payable semi-annually in arrears on each February 20 and August 20, beginning August 20, 2018 and, in each case, will initially accrue from the date of issuance and thereafter from the last date to which interest has been paid.

We may, without notice to or the consent of the holders or beneficial owners of the notes, create and issue additional notes and/or notes having the same ranking, interest rate, maturity and other terms as the notes of a particular series. Any additional debt securities having such similar terms, together with that series of notes, could be considered part of the same series of notes under the indenture; provided that if the additional notes are not fungible with the notes of a particular series for United States federal income tax purposes, the additional notes will have a separate CUSIP number.

The notes are redeemable prior to maturity as described below under the heading “— Optional Redemption.” The notes do not have the benefit of a sinking fund. The notes will be issued only in registered form without coupons in minimum denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. Each series of notes will be represented by one or more global securities registered in the name of a nominee of The Depository Trust Company, New York, New York, which we refer to as DTC. See “— Book-Entry System” below.

Payments on the notes will be made through the paying agent, which will initially be the trustee, to DTC.

Interest

The 2021 notes will accrue interest at a rate of 2.875% per annum, the 2023 notes will accrue interest at a rate of 3.250% per annum, the 2028 notes will accrue interest at a rate of 3.900% per annum and the 2048 notes will accrue interest at a rate of 4.550% per annum. The notes will accrue interest on their stated principal amount from February 20, 2018, or, in any case, from the most recent interest payment date to which interest has been paid or duly provided for. Accrued and unpaid interest on the 2021 notes will be payable semi-annually in arrears on February 19 and August 19 of each year, commencing on August 19, 2018. Accrued and unpaid interest on the 2023 notes, the 2028 notes and the 2048 notes will be payable semi-annually in arrears on February 20 and August 20 of each year, commencing on August 20, 2018. Interest on the notes will be paid to holders of record at the close of business on the preceding February 1 or August 1 immediately before the applicable interest payment date for the notes. The amount of interest payable on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any date on which interest, principal or premium is payable on the notes is not a business day, then payment of such amounts payable on such date will be made on the next succeeding day that is a business day (and without any interest or other payment in respect of any such delay) with the same force and effect as if made on such interest payment date or maturity date, as the case may be. The term “business day” means any day other than a Saturday, a Sunday or any other day on which banking institutions in New York, New York or the city where the corporate trust business of the trustee is principally administered at any particular time are required or authorized to close or be closed.

Ranking

The notes will be senior unsecured obligations of Celgene and will not be guaranteed by any of our subsidiaries. The notes will rank:

- equal in right of payment to any of our existing and future senior unsecured indebtedness;
- senior in right of payment to any of our future subordinated indebtedness; and
- effectively subordinated in right of payment to all of our subsidiaries’ obligations (including secured and unsecured obligations) and subordinated in right of payment to our secured obligations, to the extent of the assets securing such obligations.

The notes and the indenture do not limit our ability to incur additional indebtedness. We may incur substantial additional amounts of indebtedness in the future.

Optional Redemption

We may, at our option, at any time and from time to time redeem, in whole or in part, prior to (i) the maturity date for the 2021 notes, (ii) January 20, 2023 (the date that is one month prior to the maturity date for the 2023 notes), (iii) November 20, 2027 (the date that is three months prior to the maturity date for the 2028 notes) and (iv) August 20, 2047 (the date that is six months prior to the maturity date for the 2048 notes) (each such date with respect to the 2023 notes, the 2028 notes and the 2048 notes, a “Par Call Date”), the notes of the applicable series, on at least 15 days, but not more than 60 days, prior notice sent to the registered address of each holder of the notes of the applicable series (or otherwise transmitted in accordance with DTC procedures) at a redemption price, equal to the greater of:

- 100% of the principal amount of the notes to be redeemed; or
- the sum of the present values of the remaining scheduled payments of interest and principal thereon that would be due (i) on the maturity date for the 2021 notes or (ii) if the 2023 notes, 2028 notes or 2048 notes, as applicable, matured on their Par Call Date (in each case exclusive of interest accrued and unpaid to, but not including, the date of redemption) discounted to the date of redemption on a semi-annual basis, assuming a 360-day year consisting of twelve 30-day months, at the Treasury Rate (as defined below) plus 10 basis points in the case of the 2021 notes, 15 basis points in the case of the 2023 notes, 20 basis points in the case of the 2028 notes and 25 basis points in the case of the 2048 notes.

plus, in any case, accrued and unpaid interest to, but not including, the date of redemption; provided that the principal amount of any note remaining outstanding after a redemption in part shall be \$2,000 or a higher integral multiple of \$1,000.

On or after the applicable Par Call Date for the 2023 notes, the 2028 notes and the 2048 notes, the notes of that series will be redeemable in whole, at any time, or in part, from time to time, at our option upon not less than 15 nor more than 60 days' notice at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest to the redemption date.

"Comparable Treasury Issue" means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed (assuming for this purpose that the notes matured on (i) the maturity date for the 2021 notes and (ii) the applicable Par Call Date for the 2023 notes, the 2028 notes and the 2048 notes) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes (assuming for this purpose that the notes matured on (i) the maturity date for the 2021 notes and (ii) the applicable Par Call Date for the 2023 notes, the 2028 notes and the 2048 notes).

"Comparable Treasury Price" means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if we are given fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

"Independent Investment Banker" means one of the Reference Treasury Dealers appointed by us.

"Reference Treasury Dealer" means each of Citigroup Global Markets Inc., Deutsche Bank Securities Inc., J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated, or their respective affiliates, which are primary U.S. Government securities dealers in The City of New York, and their respective successors plus one other primary U.S. Government securities dealer in The City of New York selected by us; provided, however, that if any of the foregoing or their affiliates shall cease to be a primary U.S. Government securities dealer in The City of New York (a "Primary Treasury Dealer"), we will substitute therefor another Primary Treasury Dealer.

"Reference Treasury Dealer Quotations" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the applicable Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by the Reference Treasury Dealers at 3:30 p.m. New York time on the third business day preceding such redemption date.

"Treasury Rate" means, as obtained by us, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the applicable Comparable Treasury Issue, assuming a price for the applicable Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the applicable Comparable Treasury Price for such redemption date. On and after the redemption date for the notes of any series, interest will cease to accrue on the notes of that series or any portion thereof called for redemption, unless we default in the payment of the redemption price. On or before the redemption date for the notes of that series, we will deposit with a paying agent, or the trustee, funds sufficient to pay the redemption price of and accrued and unpaid interest on such notes to be redeemed on such date. If less than all of the notes of a series are to be redeemed, the notes of that series to be redeemed will be selected pro rata, by lottery, or by another method that complies with applicable DTC procedures. We will notify the trustee of the redemption price promptly after the calculation thereof and the trustee will have no responsibility for such calculation.

Special Mandatory Redemption

We expect to use the net proceeds from this offering in connection with the Juno acquisition (the "Acquisition"), as described under the heading "Use of Proceeds."

Within five Business Days following the earlier of (a) the date on which an Acquisition Termination Event occurs and (b) November 20, 2018, if the Acquisition has not closed on or prior to such date, we will be required to send a notice of mandatory redemption to the holders of the notes fixing the date of such

mandatory redemption (such date to be 30 days from the sending of the notice of mandatory redemption). On such mandatory redemption date, we will be required to redeem the notes, in whole but not in part, at a redemption price equal to 101% of the aggregate principal amount of such notes, plus accrued and unpaid interest on such notes to the date of redemption.

“Acquisition Termination Event” means either (1) the termination of the Merger Agreement or (2) we determine in our reasonable judgment that the Acquisition will not occur.

The proceeds of this offering will not be deposited into an escrow account pending any special mandatory redemption of the notes. Our ability to pay the redemption price to holders of the notes following a special mandatory redemption may be limited by our then existing financial resources, and sufficient funds may not be available when necessary to make any required purchases of notes.

Offer to Purchase upon Change of Control Triggering Event

If a Change of Control Triggering Event occurs with respect to the notes of a series, unless we have exercised our option to redeem the notes of such series as described above, we will be required to make an offer (the “Change of Control Offer”) to each holder of the notes of such series to repurchase all or any part (equal to \$2,000 or a higher integral multiple of \$1,000 in excess thereof) of that holder’s notes of such series on the terms set forth in such notes. In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest, if any, on the notes repurchased to but not including the date of repurchase (the “Change of Control Payment”); provided that the principal amount of any note remaining outstanding after a repurchase in part shall be \$2,000 or a higher integral multiple of \$1,000 in excess thereof.

With respect to the notes of each series, within 30 days following any Change of Control Triggering Event or, at our option, prior to any Change of Control, but after public announcement of the transaction that constitutes or may constitute the Change of Control, a notice will be sent to holders of the notes of the applicable series (or otherwise provided in accordance with DTC procedures) describing the transaction that constitutes or may constitute the Change of Control Triggering Event and offering to repurchase the notes of such series on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is sent or otherwise provided or, if the notice is sent or otherwise provided prior to the Change of Control, no earlier than 30 days and no later than 60 days from the date on which the Change of Control Triggering Event occurs (the “Change of Control Payment Date”). The notice will, if sent or otherwise provided prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on the Change of Control Triggering Event occurring on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful:

- accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- deliver or cause to be delivered to the trustee the notes properly accepted together with an officers’ certificate stating the aggregate principal amount of notes or portions of notes being repurchased.

We will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and the third party repurchases all notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the Change of Control Payment Date an event of default under the indenture, other than a default in the payment of the Change of Control Payment upon a Change of Control Triggering Event.

We will comply in all material respects with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering

Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

For purposes of the Change of Control Offer provisions of the notes, the following terms will be applicable:

“Change of Control” means the occurrence of any of the following: (1) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any “person” (as that term is used in Section 13(d) of the Exchange Act) (other than us or one of our subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our Voting Stock or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares; provided, however, that a person shall not be deemed beneficial owner of, or to own beneficially, (A) any securities tendered pursuant to a tender or exchange offer made by or on behalf of such person or any of such person’s affiliates until such tendered securities are accepted for purchase or exchange thereunder, or (B) any securities if such beneficial ownership (i) arises solely as a result of a revocable proxy delivered in response to a proxy or consent solicitation made pursuant to the applicable rules and regulations under the Exchange Act, and (ii) is not also then reportable on Schedule 13D (or any successor schedule) under the Exchange Act; (2) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to one or more “persons” (as that term is used in Section 13(d) of the Exchange Act) (other than to us or one of our subsidiaries) (a “Transferee”), provided, however, that none of the circumstances in this clause (2) will be a change of control if the persons that beneficially own our Voting Stock immediately prior to the transaction own, directly or indirectly, shares with a majority of the total Voting Stock measured by voting power rather than number of shares of the Transferee; (3) we consolidate with, or merge with or into, any “person” (as that term is used in Section 13(d) of the Exchange Act) or any such person consolidates with, or merges with or into, us, in either case, pursuant to a transaction in which any of our outstanding Voting Stock or the Voting Stock of such other person is converted into or exchanged for cash, securities or other property, other than pursuant to a transaction in which shares of our Voting Stock outstanding immediately prior to the transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving person immediately after giving effect to such transaction; or (4) the adoption of a plan relating to our liquidation or dissolution.

“Change of Control Triggering Event” means the occurrence of both a Change of Control and a Rating Event in respect thereof.

“Investment Grade Rating” means a rating equal to or higher than Baa3 (or the equivalent) by Moody’s and BBB- (or the equivalent) by S&P, and the equivalent investment grade credit rating from any additional rating agency or Rating Agencies selected by the Company.

“Moody’s” means Moody’s Investors Service, Inc., or any successor thereto.

“Rating Agencies” means (1) each of Moody’s and S&P and (2) if any of Moody’s and S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us (as certified by a resolution of our board of directors) as a replacement agency for Moody’s or S&P, or both of them, as the case may be.

“Rating Event” means (A) with respect to the 2021 notes, the rating on the 2021 notes is lowered by each of the Rating Agencies and the 2021 notes are rated below an Investment Grade Rating by each of the Rating Agencies, (B) with respect to the 2023 notes, the rating on the 2023 notes is lowered by each of the Rating Agencies and the 2023 notes are rated below an Investment Grade Rating by each of the Rating Agencies, (C) with respect to the 2028 notes, the rating on the 2028 notes is lowered by each of the Rating Agencies and the 2028 notes are rated below an Investment Grade Rating by each of the Rating Agencies and (D) with respect to the 2048 notes, the rating on the 2048 notes is lowered by each of the Rating

Agencies and the 2048 notes are rated below an Investment Grade Rating by each of the Rating Agencies, in each case, on any day during the period commencing on the earlier of the date of the first public notice of the occurrence of a Change of Control or our intention to effect a specific Change of Control transaction and ending 60 days following consummation of such Change of Control (which period will be extended so long as the rating of the applicable series of notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies).

“S&P” means S&P Global Ratings, or any successor thereto.

“Voting Stock” means, with respect to any specified “person” (as that term is used in Section 13(d) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors, managers or trustees of such person.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of “all or substantially all” of our assets and the assets of our subsidiaries, taken as a whole. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise, established definition of the phrase under applicable law. Accordingly, the applicability of the requirement that we offer to repurchase the notes of any series as a result of the sale, lease, transfer, conveyance or other disposition of less than all of our assets and the assets of our subsidiaries, taken as a whole, to one or more “persons” (as that term is used in Section 13(d) of the Exchange Act) (other than to us or one of our subsidiaries) may be uncertain.

Sinking Fund

The notes will not be entitled to the benefit of any sinking fund.

Covenants

Limitations on Liens

Other than as provided under the heading “— Exempted Liens and Sale and Leaseback Transactions,” we will not, and will not permit any Subsidiary of ours to, create, assume or suffer to exist any Indebtedness secured by any Lien on any of our or their respective Properties unless the notes are secured by such Lien equally and ratably with, or prior to, the Indebtedness secured by such Lien.

This restriction does not apply to Indebtedness that is secured by:

- Liens existing on the date of the issuance of the notes;
- Liens securing only the notes;
- Liens on Property or shares of stock in respect of Indebtedness of a Person existing at the time such Person becomes a Subsidiary of ours or is merged into or consolidated with, or its assets are acquired by, us or any Subsidiary of ours (provided that such Lien was not incurred in anticipation of such transaction and was in existence prior to such transaction) so long as such Lien does not extend to any other Property and the Indebtedness so secured is not increased;
- Liens to secure Indebtedness incurred for the purpose of all or any part of a Property’s (including shares of stock) purchase price or cost of construction or additions, repairs, alterations or other improvements; provided that (1) such Lien does not extend to or cover any other Property other than the Property so purchased, constructed or on which such additions, repairs, alterations or other improvements were so made, and (2) such Lien is incurred prior to or within 270 days after the acquisition of such Property or the completion of construction or such additions, repairs, alterations or other improvements and the full operation of such Property thereafter;
- Liens in favor of the United States or any state thereof, or any instrumentality of either, to secure certain payments pursuant to any contract or statute;
- Liens for taxes or assessments or other governmental charges or levies which are not overdue for a period exceeding 60 days unless such Liens are being contested in good faith and for which adequate reserves are being maintained, to the extent required by generally accepted accounting principles;

TABLE OF CONTENTS

- Liens created in substitution of or as replacements for any Liens referred to in the foregoing

bullets, provided that, based on a good faith determination of one of our officers, the Property encumbered under any such substitute or replacement Lien is substantially similar in nature to the Property encumbered by the otherwise permitted Lien which is being replaced.

Limitation on Sale and Leaseback Transactions

Other than as provided under the heading “— Exempted Liens and Sale and Leaseback Transactions,” we will not, and will not permit any of our Subsidiaries to, enter into any Sale and Leaseback Transaction with respect to any of our or their respective Properties, the acquisition or completion of construction and commencement of full operations of which has occurred more than 270 days prior thereto, unless:

- such transaction was entered into prior to the first issue date of the notes;
- such transaction was for the sale and leasing back to us of any Property by one of our Subsidiaries;
- the lease is for a period not in excess of five years, including renewal rights;
- we would be entitled to incur Indebtedness secured by a mortgage on the property to be leased in an amount equal to the Attributable Debt with respect to such Sale and Leaseback Transaction without equally and ratably securing the notes pursuant to the first paragraph of “— Limitation on Liens” above; or
- we or the Subsidiary, prior to or within 270 days after the sale of such Property in connection with the Sale and Leaseback Transaction is completed, applies the net cash proceeds of the sale of the Property leased to the:
 - (1) retirement of the notes or debt of ours ranking equally with the notes or to the retirement of any debt of a Subsidiary of ours; or
 - (2) acquisition of different property, facilities or equipment or the expansion of our existing business, including the acquisition of other businesses.

Exempted Liens and Sale and Leaseback Transactions

Notwithstanding the restrictions described under the headings “— Limitation on Liens” or “— Limitation on Sale and Leaseback Transactions,” we or any Subsidiary of ours may create or assume any Liens or enter into any Sale and Leaseback Transactions not otherwise permitted as described above, if the sum of the following does not exceed the greater of (x) 15% of Consolidated Total Assets calculated as of the day the Lien(s) are created or assumed or the date of the Sale and Leaseback Transaction or (y) 15% of Consolidated Total Assets calculated as of the first issue date of the notes:

- the outstanding Indebtedness secured by such Liens (not including any Liens permitted under the heading “— Limitation on Liens,” which amount does not include any Liens permitted under the provisions of this “— Exempted Liens and Sale and Leaseback Transactions” heading); *plus*
- all Attributable Debt in respect of such Sale and Leaseback Transaction entered into (not including any Sale and Leaseback Transactions permitted under the heading “— Limitation on Sale and Leaseback Transactions,” which amount does not include any Sale and Leaseback Transactions permitted under the provisions of this “— Exempted Liens and Sale and Leaseback Transactions” heading), measured, in each case, at the time such Lien is incurred or any such Sale and Leaseback Transaction is entered into by us or such Subsidiary of ours.

Consolidation, Merger or Conveyance

We may merge or consolidate with another Person and may sell, transfer or lease all or substantially all of our assets to another Person if all of the following conditions are met:

- The merger, consolidation or sale of assets must not cause an event of default. See “— Events of Default.” An event of default for this purpose would also include any event that would be an event of default if the notice or time requirements were disregarded;

- If we are not the surviving entity, the Person we would merge or consolidate with, or sell all or substantially all of our assets to, must be organized under the laws of the United States, any state thereof or the District of Columbia;
- If we are not the surviving entity, the Person we would merge or consolidate with, or sell all or substantially all of our assets to, must expressly assume by supplemental indenture all of our obligations under the notes and the indenture; and
- We must deliver specific certification and documents to the trustee.

Notwithstanding the foregoing, any of our Subsidiaries may consolidate with, merge into or transfer all or part of its properties and assets to us.

Events of Default

The term “event of default” in respect of any series of the notes means any of the following:

- we do not pay interest on the notes of that series within 30 days of its due date whether at maturity, upon redemption or upon acceleration (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);
- we do not pay the principal of or any premium on the notes of that series on its due date;
- we remain in breach of a covenant in respect of the notes of that series for 90 days after we receive a written notice of default in accordance with the provisions of the indenture stating we are in breach and requiring that we remedy the breach; or
- certain events of bankruptcy, insolvency or reorganization occur with respect to us.

The trustee may withhold notice to the holders of notes of any default (except in the payment of principal or interest) if it considers such withholding of notice to be in the best interests of the holders.

If an event of default (other than due to certain events in bankruptcy, insolvency or reorganization) with respect to the notes of any series has occurred and has not been cured, the trustee or the holders of a majority in aggregate principal amount of the notes of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare the entire principal amount (and premium, if any) of, and all the accrued and unpaid interest on, the notes of that series to be due and payable. This is called a declaration of acceleration of maturity. If an event of default with respect to the notes of any series occurs because of certain events in bankruptcy, insolvency or reorganization relating to us, the principal amount of the notes of that series will be automatically accelerated, without any action by the trustee or any holder thereof. Holders of a majority in principal amount of the notes of any series may also waive certain past defaults under the indenture on behalf of all of the holders of the notes of that series. A declaration of acceleration of maturity with respect to the notes of any series may be canceled, under specific circumstances, by the holders of at least a majority in principal amount of the notes of that series.

The trustee is not required to take any action under the indenture at the request of any of the holders unless the holders offer the trustee protection reasonably satisfactory to it from expenses and liability called an “indemnity.” If indemnity reasonably satisfactory to the trustee is provided, the holders of a majority in principal amount of the notes of any series may, with respect to the notes of that series, direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of the right, remedy or event of default.

Before you are allowed to bypass the trustee and bring a lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the notes of any series, the following must occur:

- you must give the trustee written notice that an event of default with respect to the notes of that series has occurred and remains uncured;

- the holders of a majority in aggregate principal amount of the outstanding notes must make a written request that the trustee take action because of the default and must offer the trustee indemnity reasonably satisfactory to it against the cost and other liabilities of taking that action;
- the trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity; and
- the holders of a majority in aggregate principal amount of the notes of that series must not have given the trustee a direction inconsistent with the above notice.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your notes on or after the due date.

Waiver, Modifications and Amendment

We generally may modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding notes of the affected series. However, we may not make any modification or amendment without the consent of each holder of the notes of the affected series if such action would:

- change the stated maturity of, or the principal of or premium or interest on, the notes;
- reduce any amounts due on the notes or payable upon acceleration of the maturity of the notes following a default;
- adversely affect any right of repayment at the holder's option;
- change the place (except as otherwise described in this prospectus supplement) or currency of payment on the notes;
- modify the notes to subordinate the notes to other indebtedness;
- reduce the percentage of holders of notes whose consent is needed to modify or amend the indenture;
- reduce the percentage of holders of notes whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults; or
- modify any other aspect of the provisions of the indenture dealing with modification and waiver except to increase the voting requirements.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding notes of the affected series may, on behalf of the holders of all the notes of that series, waive our compliance with certain provisions of the indenture. The holders of a majority in principal amount of the outstanding notes of the affected series may, on behalf of the holders of all the notes of such series, waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of or premium or interest on any notes of that series or in respect of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding note of that series; provided however that the holders of a majority in principal amount of the outstanding notes of the affected series may rescind an acceleration and its consequences, including any payment default that resulted from such acceleration.

Notwithstanding the foregoing, without the consent of any holder of notes of a series, we may amend or supplement the indenture or the notes for among other reasons:

- to cure any ambiguity, defect or inconsistency provided such amendment or supplement does not adversely affect the rights of any holder of notes of that series;
- to comply with the covenant described under the heading “— Covenants — Consolidation, Merger or Conveyance”;
- to appoint a successor trustee with respect to the notes and to add to or change any of the provisions of the indenture necessary to provide for the administration of the trusts in the indenture by more than one trustee;

- to comply with the requirements of the SEC in order to maintain the qualification of the indenture under the Trust Indenture Act of 1939;
- to make any change that would not adversely affect the rights of any holder of notes of that series;
- to provide for the issuance of any additional notes as permitted by the indenture; or
- to conform the indenture or the notes to the description thereof set forth in this prospectus supplement.

Defeasance and Covenant Defeasance

We may elect with respect to each series of notes either:

- defeasance, whereby we are discharged from any and all obligations with respect to that series of notes, except as may be otherwise provided in the indenture; or
- covenant defeasance, whereby we are released from our obligations with respect to certain covenants with respect to that series of notes.

We may do so when the following conditions have been satisfied:

- we deposit with the trustee, in trust, funds, in the opinion of a nationally recognized investment bank, appraisal firm or accounting firm, sufficient to pay the entire indebtedness on the notes that had not been previously delivered for cancellation, for the principal and interest to the date of the deposit (for notes that have become due and payable) or to the stated maturity or the redemption date, as the case may be (for notes that have not become due and payable);
- we have paid or caused to be paid all other sums payable under the indenture;
- we have delivered to the trustee an opinion of counsel stating that the beneficial owners of the notes will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred; and
- we have delivered to the trustee an officers' certificate and opinion of counsel, each stating that all these conditions have been complied with.

Governing Law

The indenture and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Information Concerning the Trustee

The Bank of New York Mellon Trust Company, N.A. is the trustee under the indenture and will also be the initial paying agent and registrar for the notes. We may, from time to time, borrow from or maintain deposit accounts and conduct other banking transactions with The Bank of New York Mellon Trust Company, N.A. or its affiliates in the ordinary course of business.

The indenture provides that, except during the continuance of an event of default under the indenture, the trustee under the indenture will perform only such duties as are specifically set forth in the indenture. Under the indenture, the holders of a majority in outstanding principal amount of the notes will have the right to direct the time, method and place of conducting any proceeding or exercising any remedy available to the trustee under the indenture, subject to certain exceptions. If an event of default has occurred and is continuing, the trustee under the indenture will exercise such rights and powers vested in it under the indenture and is obligated to use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The indenture and provisions of the Trust Indenture Act incorporated by reference in the indenture contain limitations on the rights of the trustee under such indenture, should it become a creditor of our company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The trustee under the indenture is permitted to engage in other transactions. However, if the trustee under the indenture acquires any prohibited conflicting interest, it must eliminate the conflict or resign.

The trustee may resign or be removed and a successor trustee may be appointed.

Definitions

The following definitions are applicable to this section:

“Attributable Debt” means, with respect to a Sale and Leaseback Transaction, an amount equal to the lesser of: (1) the fair market value of the Property (as determined in good faith by our board of directors); and (2) the present value of the total net amount of rent payments to be made under the lease during its remaining term, discounted at the rate of interest set forth or implicit in the terms of the lease, compounded semi-annually.

more Subsidiaries thereof or such Person and one or more Subsidiaries thereof, directly or indirectly, at the date of determination thereof, has at least majority ownership interest entitled to vote in the election of directors, managers or trustees thereof (or other Person performing similar functions).

Book-Entry System

DTC, which we refer to along with its successors in this capacity as the depository, will act as securities depository for the notes. The notes will be issued as fully registered securities registered in the name of Cede & Co., the depository's nominee. One or more fully registered global security certificates, representing the total aggregate principal amount of the notes, will be issued and will be deposited with the depository or its custodian and will bear a legend regarding the restrictions on exchanges and registration of transfer referred to below.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer beneficial interests in the notes so long as the notes are represented by global security certificates.

Investors may elect to hold interests in the global notes through either DTC in the U.S. or Clearstream Banking, société anonyme ("Clearstream") or Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"), in Europe if they are participants of such systems, or indirectly through organizations which are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of DTC.

DTC advises that it is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants deposit with it and facilitates the settlement among participants of securities transactions, including transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The depository is owned by a number of its direct participants and by the New York Stock Exchange and the Financial Industry Regulatory Authority, Inc. Access to DTC's system is also available to others, including securities brokers and dealers, banks and trust companies that clear transactions through or maintain custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations ("Clearstream Participants") and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures.

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of Euroclear, and applicable Belgian law (collectively, the “Terms and Conditions”). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no records of or relationship with persons holding through Euroclear Participants.

Distributions with respect to the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions.

We have provided the descriptions of the operations and procedures of DTC, Clearstream and Euroclear in this prospectus supplement solely as a matter of convenience. These operations and procedures are solely within the control of those organizations and are subject to change by them from time to time. None of us, the underwriters nor the trustee takes any responsibility for these operations or procedures, and you are urged to contact DTC, Clearstream and Euroclear or their participants directly to discuss these matters.

We will issue the notes in definitive certificated form if the depositary notifies us that it is unwilling or unable to continue as depositary or the depositary ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended, and a successor depositary is not appointed by us within 90 days. In addition, beneficial interests in a global security certificate may be exchanged for definitive certificated notes upon request by or on behalf of the depositary in accordance with customary procedures following the request of a beneficial owner seeking to exercise or enforce its rights under such notes. If we determine at any time that the notes shall no longer be represented by global security certificates, we will inform the depositary of such determination who will, in turn, notify participants of their right to withdraw their beneficial interest from the global security certificates, and if such participants elect to withdraw their beneficial interests, we will issue certificates in definitive form in exchange for such beneficial interests in the global security certificates. Any global note, or portion thereof, that is exchangeable pursuant to this paragraph will be exchangeable for security certificates, as the case may be, registered in the names directed by the depositary. We expect that these instructions will be based upon directions received by the depositary from its participants with respect to ownership of beneficial interests in the global security certificates.

As long as the depositary or its nominee is the registered owner of the global security certificates, the depositary or its nominee, as the case may be, will be considered the sole owner and holder of the global security certificates and all notes represented by these certificates for all purposes under the indenture. Except in the limited circumstances referred to above, owners of beneficial interests in global security certificates:

- will not be entitled to have the notes represented by these global security certificates registered in their names, and
- will not be considered to be owners or holders of the global security certificates or any notes represented by these certificates for any purpose under the notes or the indenture.

All payments on the notes represented by global security certificates and all transfers and deliveries of related notes will be made to the depositary or its nominee, as the case may be, as the holder of such securities.

Ownership of beneficial interests in the global security certificates will be limited to participants or persons that may hold beneficial interests through institutions that have accounts with the depositary or its nominee. Ownership of beneficial interests in global security certificates will be shown only on, and the transfer of those ownership interests will be effected only through, records maintained by the depositary or its nominee, with respect to participants' interests, or any participant, with respect to interests of persons held by the participant on their behalf. Payments, transfers, deliveries, exchanges and other matters relating to beneficial interests in global security certificates may be subject to various policies and procedures adopted by the depositary from time to time. Neither we nor the trustee will have any responsibility or liability for any aspect of the depositary's or any participant's records relating to, or for payments made on account of, beneficial interests in global security certificates, or for maintaining, supervising or reviewing any of the depositary's records or any participant's records relating to these beneficial ownership interests.

Although the depositary has agreed to the foregoing procedures in order to facilitate transfers of interests in the global security certificates among participants, the depositary is under no obligation to perform or continue to perform these procedures, and these procedures may be discontinued at any time. We will not have any responsibility for the performance by the depositary or its direct participants or indirect participants under the rules and procedures governing the depositary.

The information in this section concerning the depositary, its book-entry system, Clearstream and Euroclear has been obtained from sources that we believe to be reliable, but we have not attempted to verify the accuracy of this information.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC Participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear, as applicable.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through DTC in accordance with DTC rules; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time).

Because of time-zone differences, credits of the notes received in Clearstream or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such notes settled during such processing will be reported to the relevant Euroclear Participant or Clearstream Participant on such business day. Cash received in Clearstream or Euroclear as a result of sales of the notes by or through a Clearstream Participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of the material U.S. federal income tax consequences relating to the holders' ownership and disposition of the notes, but does not purport to be a complete analysis of all the potential tax consequences relating thereto. This summary assumes that the notes are held as capital assets (generally, property held for investment) and only addresses initial purchasers of the notes who purchase the notes in this offering at the "issue price," which, with respect to the notes in each series, will equal the first price to the public (not including bond houses, brokers or similar persons acting in the capacity of underwriters, placement agents or wholesalers) at which a substantial amount of the notes is sold for money.

This summary does not address the tax consequences arising under the laws of any foreign, state or local jurisdiction, any U.S. estate or gift tax consequences or the Medicare tax on net investment income. In addition, this discussion does not address tax consequences applicable to a holder's particular circumstances, including, without limitation, alternative minimum tax consequences and tax consequences applicable to holders that may be subject to special tax rules, such as:

- banks, insurance companies and other financial institutions;
- tax-exempt organizations;
- regulated investment companies;
- real estate investment trusts;
- brokers or dealers in securities;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- "U.S. holders" (as defined below) whose functional currency is not the U.S. dollar;
- U.S. expatriates;
- persons required for U.S. federal income tax purposes to conform the timing of income accruals with respect to the notes to their financial statements under section 451 of the Code (as defined below);
- persons that will hold the notes as part of a hedge, straddle, conversion transaction or other risk reduction or integration transaction, or persons entering into a constructive sale with respect to the notes; and
- partnerships or other pass-through entities or investors in such entities.

If a partnership (or an entity treated as a partnership for U.S. federal income tax purposes) holds our notes, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our notes, you should consult your tax advisor.

This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations as of the date hereof. These authorities may be changed, possibly retroactively, so as to result in U.S. federal income tax consequences different from those set forth below. We have not sought any rulings from the Internal Revenue Service (the "IRS") or an opinion of counsel with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS will agree with such statements and conclusions.

THIS SUMMARY OF MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. YOU ARE URGED TO CONSULT YOUR TAX ADVISOR WITH RESPECT TO THE APPLICATION OF U.S. FEDERAL INCOME

TAX LAWS TO YOUR PARTICULAR SITUATION AS WELL AS ANY TAX CONSEQUENCES ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX RULES OR UNDER THE LAWS OF ANY STATE, LOCAL, FOREIGN OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Potential Contingent Payment Debt Treatment

Upon the occurrence of a Change of Control Triggering Event, or upon the occurrence of an Acquisition Termination Event or if the Juno acquisition has not closed by the date set forth above in “Description of Notes — Special Mandatory Redemption,” with respect to the notes of a series, we would generally be required to repurchase the notes of such series at 101% of their principal amount plus accrued and unpaid interest, as described under “Description of Notes — Offer to Purchase upon Change of Control Triggering Event” and “Description of Notes — Special Mandatory Redemption.” Although the issue is not free from doubt, we intend to take the position that such requirements do not result in the notes being treated as contingent payment debt instruments under the applicable Treasury Regulations. Our position is not binding on the IRS. If the IRS were to successfully take a contrary position with respect to the notes of a series, holders would be required to treat any gain recognized on the sale or other disposition of such notes as ordinary income rather than as capital gain. Furthermore, such holders would be required to accrue interest income on a constant yield basis, based on a comparable yield determined at the time of issuance of the notes, with adjustments to such accruals when any contingent payments are made that differ from the payments calculated based on the comparable yield. Holders should consult their tax advisors regarding the tax consequences of the notes being treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Tax Consequences to U.S. Holders

As used herein, the term “U.S. holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if (i) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) the trust has a valid election in effect under current Treasury Regulations to be treated as a U.S. person.

Payments of Interest

It is expected, and therefore this discussion assumes, that the notes will not be issued with more than a *de minimis* amount of original issue discount for U.S. federal income tax purposes.

Accordingly, stated interest paid on a note generally will be taxable to a U.S. holder as ordinary interest income at the time it accrues or is received, in accordance with the U.S. holder’s method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption or Other Disposition of Notes

Upon the sale, exchange, redemption or other taxable disposition of a note, a U.S. holder will generally recognize gain or loss equal to the difference between the amount realized upon the sale, exchange, redemption or other taxable disposition (less any amount attributable to accrued interest, which will be taxable as described above under “Payments of Interest”) and the holder’s adjusted tax basis in the note. A U.S. holder’s adjusted tax basis in a note will generally equal the amount the U.S. holder paid for the note.

Gain or loss realized on the sale, exchange, redemption or other taxable disposition of a note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the sale, exchange, redemption or other taxable disposition the note has been held by the U.S. holder for more than one year. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

A U.S. holder will be subject to information reporting, unless it is an exempt recipient, and may also be subject to backup withholding (currently at a rate of 24% which is expected to increase to 28% for tax years beginning after December 31, 2025) with respect to payments of interest and the gross proceeds from the sale, exchange, redemption or other taxable disposition of a note. Certain holders (including, among others, corporations) are generally not subject to information reporting and backup withholding. A U.S. holder generally will be subject to backup withholding if such holder is not otherwise exempt and such holder:

- fails to furnish its taxpayer identification number, or TIN, which, for an individual, is ordinarily his or her social security number;
- furnishes an incorrect TIN;
- is notified by the IRS that it is subject to backup withholding because it has previously failed to properly report payments of interest or dividends; or
- fails to certify, under penalties of perjury, that it has furnished a correct TIN and that the IRS has not notified the U.S. holder that it is subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS in a timely manner and the required procedures are followed.

Tax Consequences to Non-U.S. Holders

As used herein, the term "non-U.S. holder" means a beneficial owner of a note that is, for U.S. federal income tax purposes, a nonresident alien individual or a corporation, trust or estate that is not a U.S. holder.

Special rules may apply to certain non-U.S. holders such as controlled foreign corporations and passive foreign investment companies. Such entities should consult their own tax advisors to determine the U.S. federal, state, local and other tax consequences that may be relevant to them.

Payments of Interest

The payment of interest on a note to a non-U.S. holder that is not effectively connected with such non-U.S. holder's U.S. trade or business will not be subject to U.S. federal income or withholding tax if:

- the non-U.S. holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and applicable Treasury Regulations;
- the non-U.S. holder is not a controlled foreign corporation that is related to us through stock ownership as provided in the Code and applicable Treasury Regulations;
- the non-U.S. holder is not a bank whose receipt of interest on the notes is in connection with an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business; and
- (1) the non-U.S. holder provides us or our agent with a properly completed IRS Form W-8BEN or W-8BEN-E and certifies under penalties of perjury that it is not a U.S. person, or (2) a bank, brokerage house or other financial institution that holds the notes on behalf of a non-U.S. holder

in the ordinary course of its trade or business certifies to us or our agent, under penalty of perjury, that it has received an IRS Form W-8BEN or W-8BEN-E from the non-U.S. holder and furnishes us or our agent with a copy of the properly completed IRS Form W-8BEN or W-8BEN-E.

If a non-U.S. holder cannot satisfy the requirements described in the immediately preceding paragraph, payments of interest made to the non-U.S. holder will be subject to a 30% U.S. federal withholding tax unless the non-U.S. holder provides a properly executed:

- IRS Form W-8BEN or W-8BEN-E claiming an exemption from, or reduction in the rate of, withholding under an applicable income tax treaty; or
- IRS Form W-8ECI stating that the interest paid on the note is not subject to withholding tax because it is effectively connected with conduct of a trade or business by the non-U.S. holder in the United States.

Special rules apply if an interest payment is effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if a treaty applies, is attributable to a permanent establishment or fixed base of the non-U.S. holder within the United States. Any such payment, although not subject to withholding tax (if the IRS Form W-8ECI discussed above is provided), generally will be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a U.S. person, unless an applicable income tax treaty provides otherwise. If such a non-U.S. holder is a corporation, the holder may also, under certain circumstances, be subject to branch profits tax at a 30% rate (or lower applicable treaty rate).

Sale, Exchange, Redemption or Other Disposition of Notes

Subject to the discussion of backup withholding below, generally, a non-U.S. holder will not be subject to U.S. federal income tax with respect to gain realized on the sale, exchange, redemption or other taxable disposition of a note unless the gain is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States, or the non-U.S. holder is a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met. Any amounts attributable to accrued interest will be treated as described above under "Payments of Interest."

If a non-U.S. holder's gain is effectively connected with the conduct of a U.S. trade or business and, if a treaty applies, is attributable to a permanent establishment or fixed base of the non-U.S. holder within the United States, the non-U.S. holder generally will be required to pay U.S. federal income tax on the net gain derived from the sale, exchange, redemption or other taxable disposition in the same manner as if it were a U.S. person unless an applicable income tax treaty provides otherwise. If such a non-U.S. holder is a corporation, the holder may also, under certain circumstances, be subject to branch profits tax at a 30% rate (or lower applicable treaty rate). If a non-U.S. holder is subject to the 183-day rule described above, the holder generally will be subject to U.S. federal income tax at a rate of 30% (or a reduced rate under an applicable treaty) on the amount by which capital gains allocable to U.S. sources (including gains from the sale, exchange, redemption or other taxable disposition of the note) exceed capital losses allocable to U.S. sources.

Information Reporting and Backup Withholding

We must report annually to the IRS and to each non-U.S. holder the amount of interest paid to such holder and the tax withheld with respect to such interest, regardless of whether withholding was required. Copies of the information returns reporting such interest and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides or is established under the provisions of an applicable income tax treaty.

U.S. backup withholding is imposed at a current rate of 24% (which is expected to increase to 28% for tax years beginning after December 31, 2025) on certain payments to persons that fail to furnish the information required under the U.S. information reporting requirements. Backup withholding will not apply to payments of principal and interest on the notes to a non-U.S. holder that certifies under penalties

of perjury that it is not a U.S. person as defined under the Code or otherwise qualifies for an exemption (provided that payor does not know or have reason to know that such holder is a U.S. person or that the conditions of any other exemptions are not in fact satisfied).

Under the Treasury Regulations, the payment of proceeds from the sale, exchange, redemption or other taxable disposition of a note by a non-U.S. holder made to or through a U.S. office of a broker generally will be subject to information reporting and backup withholding unless the beneficial owner provides a properly executed IRS Form W-8BEN, W-8BEN-E (or other applicable form) and certifies under penalty of perjury that it is not a U.S. person as defined under the Code (and the payor does not have actual knowledge or reason to know that the beneficial owner is a U.S. person as defined under the Code) or such owner otherwise establishes an exemption. The payment of proceeds from the sale, exchange, redemption or other taxable disposition of a note by a non-U.S. holder made to or through a non-U.S. office of a broker generally will not be subject to backup withholding or information reporting, except as noted below. In the case of proceeds from the sale, exchange, redemption or other taxable disposition of a note by a non-U.S. holder made to or through a non-U.S. office of a broker that is:

- a U.S. person, including a non-U.S. branch of such person;
- a “controlled foreign corporation” for U.S. federal income tax purposes;
- a non-U.S. person 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or
- a non-U.S. partnership if at any time during its tax year (1) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (2) the non-U.S. partnership is engaged in a U.S. trade or business;

information reporting, but not backup withholding, will apply unless the broker has documentary evidence in its records that the beneficial owner is a non-U.S. holder and certain other conditions are met, or the beneficial owners otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder’s U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS in a timely manner and the required procedures are followed.

Additional Withholding Tax on Payments Made to Non-U.S. Accounts

Withholding taxes may be imposed under the provisions of the law generally known as the Foreign Account Tax Compliance Act, or FATCA, on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on interest on, or gross proceeds from the sale or other disposition of, the notes paid to a “foreign financial institution” or a “nonfinancial foreign entity” (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies that it does not have any “substantial U.S. owners” (as defined in the Code) or furnishes identifying information regarding each substantial U.S. owner (generally by providing an IRS Form W-8BEN-E) or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules and provides appropriate documentation (such as an IRS Form W-8BEN-E). If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain “specified U.S. persons” or “U.S.-owned foreign entities” (each as defined in the Code), annually report certain information about such accounts and withhold 30% on payments to non-compliant foreign financial institutions and certain other account holders. An intergovernmental agreement between the United States and an applicable foreign country, or future Treasury Regulations or other guidance, may modify these requirements. Accordingly, the entity through which the notes are held will affect the determination of whether such withholding is required.

Under the applicable Treasury Regulations, withholding under FATCA generally applies to payments of interest on the notes, and will apply to payments of gross proceeds from the sale or other disposition of such notes on or after January 1, 2019. The FATCA withholding tax will apply to all withholdable

payments without regard to whether the beneficial owner of the payment would otherwise be entitled to an exemption from, or a reduced rate of, withholding tax pursuant to an applicable tax treaty with the United States or U.S. domestic law. If payment of this withholding tax is made, holders that are otherwise eligible for an exemption from, or reduction of, U.S. federal withholding taxes with respect to such interest or proceeds will be required to seek a credit or refund from the IRS to obtain the benefit of such exemption or reduction. We will not pay additional amounts to holders of the notes in respect of any amounts withheld.

Prospective holders should consult their own tax advisors regarding the potential application of withholding under FATCA to their investment in the notes.

If an underwriter defaults, the underwriting agreement provides that, under certain circumstances, the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to the approval of legal matters by counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Standard Chartered Bank will not effect any offers or sales of any notes in the United States unless it is through one or more U.S. registered broker-dealers as permitted by the regulations of the Financial Industry Regulatory Authority, Inc.

Commissions and Discounts

The underwriters have advised us that they propose to offer the notes to the public at the public offering prices on the cover page of this prospectus supplement and may offer such notes to selected dealers at the public offering prices minus selling concessions of up to 0.150% of the principal amount of the 2021 notes, 0.200% of the principal amount of the 2023 notes, 0.250% of the principal amount of the 2028 notes and 0.500% of the principal amount of the 2048 notes. In addition, the underwriters may allow, and those selected dealers may realow, selling concessions to certain other dealers of up to 0.100% of the principal amount of the 2021 notes, 0.150% of the principal amount of the 2023 notes, 0.150% of the principal amount of the 2028 notes and 0.250% of the principal amount of the 2048 notes. After the initial public offering, the underwriters may change the public offering prices and other selling terms.

The expenses of the offering, not including the underwriting discounts, are estimated to be approximately \$6.9 million and are payable by us.

New Issue of Notes

The notes are new issues of securities with no established trading markets. We do not intend to apply for listing of the notes on any national securities exchange or for quotation of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make markets in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading markets for the notes or that active public markets for the notes will develop. If active public trading markets for the notes do not develop, the market prices and liquidity of the notes may be adversely affected.

Price Stabilization and Short Positions

In connection with the offering, the underwriters are permitted to engage in transactions that stabilize the market prices of the notes. Such transactions consist of bids or purchases to peg, fix or maintain the prices of the notes. If the underwriters create short positions in the notes in connection with the offering, *i.e.*, if they sell more notes than are on the cover page of this prospectus supplement, the underwriters may reduce those short positions by purchasing notes in the open market. Purchases of a security to stabilize the price or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the prices of the notes. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, financial advisory, investment banking and other commercial dealings in the ordinary course of business with us, or our affiliates, including acting as lenders under various loan facilities. In particular, affiliates of J.P. Morgan Securities LLC were engaged as financial advisors in connection with the Juno acquisition. They have received, and may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain other of those underwriters or their affiliates routinely hedge, and the underwriter or its affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Settlement

We expect that delivery of the notes will be made against payment therefor on or about February 20, 2018, which will be the seventh business day following the date of the pricing of the notes (such settlement being referred to as "T+7"). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market

generally are required to settle in two business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next four succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify alternative settlement arrangements to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on the date of pricing or the next four succeeding business days should consult their own advisors.

Canada

The notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement or the accompanying prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Each of the underwriters is relying on the exemption set out in section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* from having to provide certain conflict of interest disclosure in this prospectus supplement.

Prohibition of sales to EEA retail investors

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. This Prospectus has been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. This Prospectus is not a prospectus for the purposes of the Prospectus Directive.

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are "qualified investors" (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order") and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

ABOUT THIS PROSPECTUS

In this prospectus, we use the terms “Celgene,” “we,” “us” and “our” to refer to Celgene Corporation, a Delaware corporation, and its consolidated subsidiaries.

This prospectus is part of a registration statement on Form S-3 filed with the Securities and Exchange Commission (SEC) using a “shelf” registration process. Under this shelf process, we may sell the securities described in this prospectus in one or more offerings from time to time. This prospectus provides you with a general description of the securities we may offer. Each time we sell securities we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus and, accordingly, to the extent inconsistent, information in this prospectus is superseded by the information in the prospectus supplement. You should read this prospectus, the applicable prospectus supplement and the information incorporated by reference in this prospectus or a prospectus supplement before making an investment decision.

You should rely only on the information contained in or incorporated by reference in this prospectus, any accompanying prospectus supplement or in any related free writing prospectus filed by us with the SEC. We have not authorized anyone to provide you with additional or different information. No underwriter, salesperson or other person is authorized to give any information or to represent anything not contained in this prospectus, any accompanying prospectus supplement or any related free writing prospectus that we may authorize to be provided to you. You must not rely on any unauthorized information or representation. If you are in a jurisdiction where offers to sell, or solicitations of offers to purchase, the securities offered by this document are unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this document does not extend to you.

You should assume that the information appearing in this prospectus, any prospectus supplement or any related free writing prospectus is accurate only as of the date on the front of such document and that any information we have incorporated by reference is accurate only as of its respective date, regardless of the time of delivery of this prospectus, any applicable prospectus supplement or any related free writing prospectus, or any sale of a security. Our business, financial condition, results of operations and prospects may have changed since that date.

You should read both this prospectus, including the “Risk Factors,” and the accompanying prospectus supplement or any related free writing prospectus, together with the additional information described under the headings “How to Obtain More Information” and “Incorporation by Reference.”

RISK FACTORS

Investing in securities involves a risk of loss. Before investing in our securities, you should carefully consider the risk factors described in “Risk Factors” in our Annual Report on Form 10-K filed with the SEC for the most recent year, in any applicable prospectus supplement and any risk factors set forth in our filings with the SEC pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act), including our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, together with all of the other information included in this prospectus and any prospectus supplement and the other information that we have incorporated by reference. These risks are not the only ones facing us. Additional risks not currently known to us or that we currently deem immaterial also may impair or harm our business and financial results. Statements in or portions of a future document incorporated by reference in this prospectus, including, without limitation, those relating to risk factors, may update and supersede statements in and portions of this prospectus or such incorporated documents. Please also refer to the section below entitled “Forward-Looking Statements.”

FORWARD-LOOKING STATEMENTS

Certain statements contained or incorporated by reference in this prospectus and the accompanying prospectus supplement are considered forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended (Securities Act) and Section 21E of the Exchange Act) concerning our business, results of operations, economic performance and/or financial condition, based on management's current expectations, plans, estimates, assumptions and projections. Forward-looking statements are included, for example, in the discussions about:

- strategy;
- new product discovery and development;
- current or pending clinical trials;
- our products' ability to demonstrate efficacy or an acceptable safety profile;
- actions by the U.S. Food and Drug Administration and other regulatory authorities;
- product manufacturing, including our arrangements with third-party suppliers;
- product introduction and sales;
- royalties and contract revenues;
- expenses and net income;
- credit and foreign exchange risk management;
- liquidity;
- asset and liability risk management;
- the outcome of litigation and other proceedings;
- intellectual property rights and protection;
- economic factors;
- competition; and
- operational and legal risks.

Any statements contained in this prospectus that are not statements of historical fact may be deemed forward-looking statements. Forward-looking statements generally are identified by the words "expects," "anticipates," "believes," "intends," "estimates," "aims," "plans," "may," "could," "will," "will continue," "seeks," "should," "predict," "potential," "outlook," "guidance," "target," "forecast," "probable," "possible" or the negative of such terms and similar expressions. Forward-looking statements are subject to change and may be affected by risks and uncertainties, most of which are difficult to predict and are generally beyond our control. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update any forward-looking statement in light of new information or future events, although we intend to continue to meet our ongoing disclosure obligations under the U.S. securities laws and other applicable laws.

We caution you that a number of important factors could cause actual results or outcomes to differ materially from those expressed in, or implied by, the forward-looking statements, and therefore you should not place too much reliance on them. These factors include, among others, those described herein, under "Risk Factors" in this prospectus and the applicable prospectus supplement and the risks described in our other filings with the SEC, including our Annual Report on Form 10-K for the most recent fiscal year and our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

It is not possible to predict or identify all such factors, and therefore the factors that are noted are not intended to be a complete discussion of all potential risks or uncertainties that may affect forward-looking statements. If these or other risks and uncertainties materialize, or if the assumptions underlying any of the forward-looking statements prove incorrect, our actual performance and future actions may be materially different from those expressed in, or implied by, such forward-looking statements. We can offer no assurance that our estimates or expectations will prove accurate or that we will be able to achieve our strategic and operational goal.

USE OF PROCEEDS

Unless otherwise indicated in an accompanying prospectus supplement, we will use the net proceeds from the sale of securities covered by this prospectus for general corporate purposes, which may include, without limitation, further development of our clinical and pre-clinical programs, capital expenditures, general corporate development activities, meeting working capital needs, share repurchases of our common stock and to repay outstanding indebtedness, including repayment of some or all of our outstanding commercial paper. We may use funds that are not immediately needed for these purposes to temporarily invest in short-term marketable securities.

The intended application of proceeds from the sale of any particular offering of securities using this prospectus will be described in the accompanying prospectus supplement relating to such offering. The precise amount and timing of the application of these proceeds will depend on our funding requirements and the availability and costs of other funds.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our historical ratio of earnings to fixed charges for each of the periods indicated.

For purposes of calculating these ratios: (i) “earnings” consist of the sum of: (x) our pretax income before (gain)/loss from equity investees and (y) fixed charges, excluding capitalized interest; and (ii) “fixed charges” consist of the sum of interest expense, capitalized interest, amortization of debt discount and premium and a portion of lease payments considered to represent an interest factor.

DESCRIPTION OF DEBT SECURITIES

We may offer senior unsecured general obligations, which we refer to as the “debt securities” in this section. The debt securities will be issued from time to time under an indenture and applicable supplemental indenture, if any, with respect to any series of debt securities, between us and The Bank of New York Mellon Trust Company, N.A., as trustee. The indenture and any supplemental indenture are technical documents with terms that have defined meanings. A prospectus supplement will contain a summary of the indenture and any applicable supplemental indenture. We urge you to read the indenture, any applicable supplemental indenture and the accompanying prospectus supplement describing the particular terms of the debt securities because they, and not this description, define the rights of the debt security holders. The form of indenture is filed as an exhibit to this registration statement.

General

The following briefly summarizes the material provisions of the indenture and the debt securities, other than pricing and related terms for a particular issuance, which will be described in an accompanying prospectus supplement.

A form of each debt security, reflecting the particular terms and provisions of a series of offered debt securities, will be filed with the SEC at the time of the offering.

Brief Description of the Senior Debt Securities

The debt securities will:

- be our unsecured general obligation;
- rank senior in right of payment to all of our subordinated indebtedness;
- rank equally in right of payment with all of our other senior indebtedness;
- be effectively subordinated to all of our future secured indebtedness to the extent of the value of the assets securing such indebtedness; and
- be structurally subordinated to, which means they rank behind, all of the liabilities of our subsidiaries.

We will pay principal and interest on the debt securities at our office or agency, which we maintain in New York City. At our option, we may make payments of interest by check mailed to the debt security holders at their respective addresses as set forth in the register of debt securities. All payments with respect to global debt securities, however, will be made by wire transfer of immediately available funds to the accounts specified by the holders of the global debt securities. Until otherwise designated by us, our office or agency in New York City will be the office of the trustee or an affiliate thereof maintained for payment purposes.

Information in the Prospectus Supplement

The prospectus supplement for any offered series of debt securities will describe the following terms, as applicable:

- the title;
- any limit on the aggregate principal amount;
- the percentage of the principal amount at which the debt securities will be sold and, if applicable, the method of determining the price;
- the maturity date or dates;
- the rate at which the debt securities will bear interest, if any, and the interest payment dates;
- if the debt securities are original issue discount debt securities, the yield to maturity;

- the date or dates from which any interest will accrue, or how such date or dates will be determined, and the interest payment dates and any related record dates;
- any provisions for the payment of additional amounts for taxes;
- the denominations in which the currency or currency unit of the debt securities will be issuable if other than denominations of \$2,000 and integral multiples of \$1,000 in excess thereof;
- the terms and conditions on which we may optionally redeem the debt securities;
- the terms and conditions on which we may be required to redeem the debt securities;
- any obligation for us to redeem, purchase or repay the debt securities at the option of a holder upon the happening of an event other than a change of control and certain sales of assets, which are specified in the indenture, and the terms and conditions of redemption, purchase or repayment;
- the names and duties of any co-trustees, depositaries, authenticating agents, calculation agents, paying agents, transfer agents or registrars for the debt securities;
- any changes in or additions to the covenants applicable to the particular debt securities being issued;
- any additions to or changes in the events of default with respect to the securities and any change in the right of the trustee or the holders to declare the principal and interest, if any, with respect to such securities to be due and payable;
- any material provisions of the applicable indenture described in this prospectus that do not apply to the debt securities;
- any other terms of the debt securities, which may modify, supplement or delete any provision of the indenture as it applies to that series; and
- any other specific terms of the debt securities.

We will issue the debt securities only in registered form. As currently anticipated, debt securities of a series will trade in book-entry form, and global notes will be issued in physical (paper) form. Unless otherwise provided in the accompanying prospectus supplement, we will issue debt securities denominated in U.S. Dollars and only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 1,150,000,000 shares of common stock, par value \$.01 per share, and 5,000,000 shares of preferred stock, par value \$.01 per share. As of October 21, 2016, there were 775,203,498 shares of common stock outstanding and no shares of preferred stock outstanding.

Common Stock

Holders of common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders, and do not have cumulative voting rights. Holders of common stock are entitled to receive ratably such dividends, if any, as may be declared by our board of directors out of funds legally available therefor, and subject to any preferential dividend rights of any then outstanding preferred stock. Upon our liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably our net assets available after the payment of all debts and other liabilities and subject to any liquidation preference of any then outstanding preferred stock. Holders of common stock have no preemptive, subscription or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. The outstanding shares of common stock are, and any shares offered by us in this offering will be when issued and paid for, fully paid and non-assessable.

Preferred Stock

Our board of directors has the authority, subject to certain restrictions, without further stockholder approval, to issue, at any time and from time to time, up to 5,000,000 shares of preferred stock in one or more series. Each such series shall have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our board of directors, which may include, among others, dividend rights, voting rights, redemption and sinking fund provisions, liquidation preferences, conversion rights and preemptive rights, to the full extent now or hereafter permitted by the laws of the State of Delaware.

The rights of the holders of common stock will be subject to, and may be adversely affected by, the rights of holders of any preferred stock that may be issued in the future. Such rights may include voting and conversion rights which could adversely affect the holders of the common stock. Satisfaction of any dividend or liquidation preferences of outstanding preferred stock would reduce the amount of funds available, if any, for the payment of dividends or liquidation amounts on common stock. Holders of preferred stock would typically be entitled to receive a preference payment.

Delaware Law and Some By-Law Provisions

Our board of directors has adopted certain amendments to our by-laws intended to strengthen our board of directors' position in the event of a hostile takeover attempt. These by-law provisions have the following effects:

- they provide that only persons who are nominated in accordance with the procedures set forth in the by-laws shall be eligible for election as our directors, except as may be otherwise provided in the by-laws;
- they provide that only business brought before the annual meeting by our board of directors or by a stockholder who complies with the procedures set forth in the by-laws may be transacted at an annual meeting of stockholders;
- they provide that only the chairman of the board, if any, the chief executive officer, the president, the secretary or a majority of our board of directors may call special meetings of our stockholders; and
- they establish a procedure for our board of directors to fix the record date whenever stockholder action by written consent is undertaken.

Furthermore, we are subject to the provisions of Section 203 of the Delaware General Corporation Law, an anti-takeover law. In general, the statute prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the

date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. For purposes of Section 203, a “business combination” includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder, and an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior, did own, 15% or more of the corporation’s voting stock.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is American Stock Transfer & Trust Company. It is located at 6201 15th Avenue, Brooklyn, New York 11219, and its telephone number is (718) 921-8124.

DESCRIPTION OF WARRANTS

This section describes the general terms of the warrants that we may offer and sell by this prospectus. This prospectus and any accompanying prospectus supplement will contain the material terms and conditions for each warrant. The accompanying prospectus supplement may add, update or change the terms and conditions of the warrants as described in this prospectus.

General

We may issue warrants to purchase debt securities, preferred stock, common stock, depositary shares or units. Warrants may be issued independently or together with any securities and may be attached to or separate from those securities. The warrants will be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all of which will be described in the prospectus supplement relating to the warrants we are offering. The warrant agent will act solely as our agent in connection with the warrants and will not have any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

Brief Description of the Debt Warrants

We may issue warrants for the purchase of our debt securities. As explained below, each debt warrant will entitle its holder to purchase debt securities at the exercise price set forth in, or to be determinable as set forth in, the related prospectus supplement. Debt warrants may be issued separately or together with debt securities.

The debt warrants are to be issued under debt warrant agreements to be entered into between us, and one or more banks or trust companies, as debt warrant agent, as will be set forth in the prospectus supplement relating to the debt warrants being offered by the prospectus supplement and this prospectus.

The particular terms of each issue of debt warrants, the debt warrant agreement relating to the debt warrants and the debt warrant certificates representing debt warrants will be described in the applicable prospectus supplement, including, as applicable:

- the title of the debt warrants;
- the initial offering price;
- the title, aggregate principal amount and terms of the debt securities purchasable upon exercise of the debt warrants;
- the currency or currency units in which the offering price, if any, and the exercise price are payable;
- the title and terms of any related debt securities with which the debt warrants are issued and the number of the debt warrants issued with each debt security;
- the date, if any, on and after which the debt warrants and the related debt securities will be separately transferable;

Brief Description of the Equity Warrants

We may issue warrants for the purchase of our equity securities, such as our preferred stock, common stock, depositary shares or units. As explained below, each equity warrant will entitle its holder to purchase equity securities at an exercise price set forth in, or to be determinable as set forth in, the related prospectus supplement. Equity warrants may be issued separately or together with equity securities.

The equity warrants are to be issued under equity warrant agreements to be entered into between us and one or more banks or trust companies, as equity warrant agent, as will be set forth in the prospectus supplement relating to the equity warrants being offered by the prospectus supplement and this prospectus.

The particular terms of each issue of equity warrants, the equity warrant agreement relating to the equity warrants and the equity warrant certificates representing equity warrants will be described in the applicable prospectus supplement, including, as applicable:

- the title of the equity warrants;

- if applicable, the designation and terms of the equity securities with which the equity warrants are issued, and the number of equity warrants issued with each equity security;

This section describes the general terms of the depositary shares we may offer and sell by this prospectus. This prospectus and any accompanying prospectus supplement will contain the material terms and conditions for the depositary shares. The accompanying prospectus supplement may add, update, or change the terms and conditions of the depositary shares as described in this prospectus.

General

We may, at our option, elect to offer fractional or multiple shares of preferred stock, rather than single shares of preferred stock (to be set forth in the prospectus supplement relating to a particular series of preferred stock). In the event we elect to do so, depositary receipts evidencing depositary shares will be issued.

The shares of any class or series of preferred stock represented by depositary shares will be deposited under a deposit agreement among us, a depositary selected by us, and the holders of the depositary receipts. The depositary will be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50 million. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable fraction of a share of preferred stock represented by such depositary share, to all the rights and preferences of the shares of preferred stock represented by the depositary share, including dividend, voting, redemption and liquidation rights.

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of the related class or series of preferred shares in accordance with the terms of the offering described in the related prospectus supplement.

We or a selling securityholder may offer the securities (i) to or through underwriters; (ii) to or through dealers; (iii) through agents; (iv) directly or through our subsidiaries to purchasers; (v) through a combination of any such methods of sale; and/or (vi) through any other methods described in a prospectus supplement.

We or a selling securityholder may distribute the offered securities from time to time in one or more transactions at (i) a fixed price or prices, which may be changed; (ii) at market prices prevailing at the time of sale; (iii) at prices related to such market prices; or (iv) at negotiated prices.

We will prepare a prospectus supplement for each offering that will disclose the terms of the offering, including the name or names of any of the underwriters, the public offering price of the securities and the proceeds to us from the sale, any underwriting discounts and other items constituting compensation to the underwriters and dealers.

The securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more underwriters without a syndicate. If we or a selling securityholder utilizes an underwriter or underwriters in the sale of securities, we will execute an underwriting agreement with the underwriter or underwriters at the time we reach an agreement for sale. Unless otherwise disclosed in the prospectus supplement, the obligations of the underwriters to purchase securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement if any are purchased.

If a prospectus supplement so indicates, the underwriters may, pursuant to Regulation M under the Exchange Act, engage in transactions, including stabilization bids or the imposition of penalty bids, which may have the effect of stabilizing or maintaining the market price of the securities at a level above that which might otherwise prevail in the open market. Underwriters are not required to engage in any of these activities, or to continue such activities if commenced.

In compliance with the guidelines of Financial Industry Regulatory Authority, Inc. (FINRA), the maximum commission or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement; however, it is anticipated that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

We may agree to indemnify underwriters who participate in the distribution of securities against certain liabilities to which they may become subject in connection with the sale of the securities, including liabilities arising under the Securities Act.

We also may sell the offered securities to a dealer as principal. If we sell the offered securities to a dealer as a principal, then the dealer may resell those securities to the public at varying prices to be determined by such dealer at the time of resale. The name of the dealer and the terms of the transactions will be set forth in the applicable prospectus supplement.

The offered securities also may be offered through agents we may designate from time to time. The applicable prospectus supplement will contain the name of any such agent and the terms of its agency. Unless otherwise indicated in the prospectus supplement, any such agent will act on a best efforts basis for the period of its appointment.

We or a selling securityholder may directly solicit offers to purchase the offered securities, and we or a selling securityholder may sell directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. The applicable prospectus supplement will describe the terms of any direct sales, including the terms of any bidding or auction process, if utilized.

As one of the means of direct issuance of the offered securities, we may utilize the services of any available electronic auction system to conduct an electronic "dutch auction" of the offered securities among potential purchasers who are eligible to participate in the auction of such securities, if so described in the prospectus supplement.

Dealers and agents named in a prospectus supplement may be deemed to be underwriters (within the meaning of the Securities Act) of the securities described in the prospectus supplement and, under agreements which may be entered into with us, may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution for payments which they may be required to make in respect of those liabilities. Certain of the underwriters, dealers, agents and their affiliates may be customers of, may engage in transactions with and may perform services for us or our affiliates in the ordinary course of business.

A prospectus and accompanying prospectus supplement in electronic form may be made available on the websites maintained by the underwriters. The underwriters may agree to allocate a number of securities for sale to their online brokerage account holders. Such allocations of securities for internet distributions will be made on the same basis as other allocations. In addition, securities may be sold by the underwriters to securities dealers who resell securities to online brokerage account holders.

We may enter into hedging transactions in connection with any particular issue of debt securities offered under this prospectus, including forwards, futures, options, interest rate or exchange rate swaps and repurchase or reverse repurchase transactions with, or arranged by, the applicable agent, underwriter or dealer or an unrelated entity. We, the applicable agent, underwriter or dealer or other parties may receive compensation, trading gain or other benefits in connection with these transactions. We are not required to engage in any of these transactions. If we commence these transactions, we may discontinue them at any time. Counterparties to these hedging activities may also engage in market transactions involving the debt securities offered under this prospectus.

We will identify the specific plan of distribution, including any underwriters, dealers, agents or direct purchasers and their compensation in a prospectus supplement.
